WELCOME TO OUR 2025 COLLECTION

As we eagerly anticipate another gardening season, I'm delighted to introduce you to our 2025 Harrod Horticultural brochure. Reflecting on 2024, a year that saw us celebrating our 70th anniversary, I'm filled with immense pride in how far we've come. Despite a particularly wet summer, which challenged even the most seasoned gardeners, we saw your passion and dedication shine through, transforming rainy days into opportunities for growth and renewal in your outdoor spaces.

This year, we're excited to continue our journey with you, bringing fresh inspiration and innovation to your gardens. Our new products - including the Darsham folding furniture collection, planters and Blacksmith Arch - are designed with your needs in mind, whether you're looking to enhance your existing garden or embark on a full transformation. From a focus on our vintage cages and metal raised beds that are taking social media by storm, to brand new handcrafted garden furniture, you'll find plenty to explore in the following pages.

As we look ahead, I'm thrilled to share that we'll be showcasing our furniture collections again at this year's Chelsea Flower Show, an event that never fails to inspire and captivate the gardening community. Additionally, we're popping up on the iconic King's Road in London this April, where you can see our products up close and discover new ideas to bring your garden visions to life.

Whether you're tending to a small urban plot, nurturing a bountiful allotment, or creating a grand outdoor retreat, we're here to help you make your garden a true reflection of your personal style. I hope you find the perfect solutions and inspiration within these pages to make 2025 your best gardening year yet.

Happy gardening!

GROW YOUR OWN

Whether you're a seasoned green-fingered professional or just beginning your journey into vegetable growing, there's never been a more exciting time to invest in quality garden solutions that will stand the test of time.

The benefits of raised beds are well known, offering an ideal environment for your plants to thrive. If you're yet to get started with your own GYO plot, or looking for a revamp - our popular raised beds are designed to suit gardens and plots of all sizes, providing the flexibility you need to create a growing space that works for you. From crop cages to support frames, hoops to netting, you'll find everything you need in the following pages.

To help you make the most of your growing efforts this year, we've curated a month-by-month guide on what to plant and harvest in the UK - see right.

From early spring sowing to autumnal harvesting, you'll have everything you need to achieve growing success.

Get social with us

YOUR 2025 GROWING CALENDAR:

March: Sow carrots, beetroot, and lettuce outdoors. Pot up early potatoes and plant flower seeds like marigolds and sweet peas.

April: Plant out tomatoes, beans, and cucumbers. Sow courgettes and pumpkins, and start planting strawberries and herbs like basil and coriander.

May: Plant summer vegetables like sweetcorn, peppers, and tomatoes. Add flowering plants like sunflowers and nasturtiums, and continue planting strawberries.

June: Harvest early potatoes, broad beans, and lettuce. Sow succession crops, and begin harvesting herbs like thyme and mint. Prune roses and pick early raspberries.

July: Harvest peas, carrots, and summer squash. Begin sowing winter cabbages, and enjoy a bounty of herbs, berries, and cut-flowers like dahlias and zinnias.

August: Harvest tomatoes, sweetcorn, courgettes, and cucumbers. Sow autumn radishes, and start planting bulbs for spring flowers. Continue harvesting herbs and summer fruits.

September: Pick apples, pears, and late raspberries. Harvest main crop potatoes and onions, and plant autumn-flowering bulbs like crocuses and autumn bedding plants such as cyclamen.

October: Finish harvesting pumpkins, squash, and late herbs. Plant garlic and overwintering onions, and sow hardy annual flowers for early blooms next year.

November: Harvest the last of your root vegetables. Plant broad beans for next year, and start planning your winter herb garden indoors.

December: Reflect on the year's successes, enjoy winter harvests of root veg and hardy herbs, and plan for the next growing season.

January: Plan your garden layout. Start sowing onions and early peas indoors, and prepare beds for garlic and shallots.

February: Sow chillies, tomatoes, and aubergines indoors. Plant out broad beans, and start growing herbs like parsley and chives.

RAISED BEDS

Growing your own produce in a raised bed offers unbeatable benefits. With better soil control, improved drainage, and easier weed management, raised beds provide the ideal environment for healthy, productive plants.

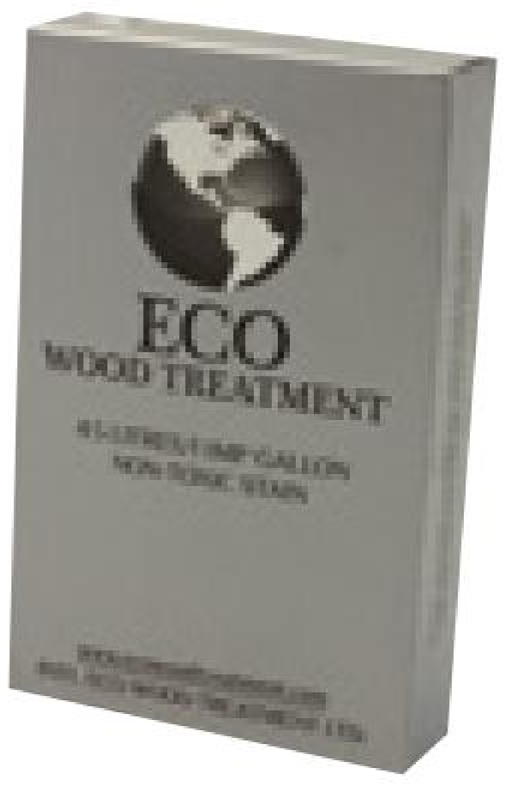
There is a range of raised beds available from Harrod Horticultural. Whether you're planting on the allotment or in your kitchen garden – prefer traditional or contemporary styles - there is a product to suit everyone.

Choose from:

- **Harrod Allotment Wooden Raised Beds - p.8**
- **Harrod Standard Wooden Raised Beds - p.10**
- **Harrod Superior Wooden Raised Beds - p.12**
- **Harrod Superior Metal Raised Beds - p.14**
- **Harrod Modular 4-In-1 Raised Beds - p.16**

Bed Liners
Our thick, one-piece non-woven polypropylene fabric liners enhance water retention, suppress weeds, protects the wood and keeps sand and compost in place - see table right.

Rolawn® Topsoil Bulk Bags - on our website.



Eco Wood Treatment
This non-toxic preservative and stain gives additional protection and will not peel or fade. Powder mixes with water.
4.5 litres for 14 sq.m coverage
GDN-293 £15.95

22 litres for 70 sq.m coverage
GDN-295 £64.95

DON'T FORGET: *complete your planning with these accessories.*

Our top-rated Raised Bed Accessories are perfect for enhancing your growing experience. The range includes bed liners to prevent soil loss, and specially formulated soil for optimal growth (see left). Customise your setup with crop cages (p.18-20), fitted hoops and cover kits (p.21) for year-round protection. These essentials ensure your garden thrives in style and function.

1.8m x 2.4m	£17.95	£30.45	£16.95	£30.45

TOP TIP!

Having more than one tier on your wooden raised beds offers several benefits:

- ***Maximise Space:*** Multiple tiers allow you to grow more in a compact area, perfect for small gardens.
- ***Better Drainage:*** Tiers improve drainage by allowing excess water to flow naturally between levels, reducing the risk of waterlogging.
- ***Grow Different Plants:*** Varying heights provide the ideal environment for plants with different root depths, enabling a diverse garden in one space.
- ***Aesthetically Pleasing:*** Tiers add visual interest to your garden, creating a dynamic, layered look.

HARROD ALLOTMENT WOODEN RAISED BEDS

Allotment Wooden Raised Beds are a great introduction to raised bed gardening, giving you a cost-effective way to grow your own fruit and veg in your garden or allotment plot. The raised beds are made using longer-lasting thick Scandinavian wooden planks, slow-grown timber for greater strength which is planed all round and comes pre-drilled for easy assembly.

- ***Reliable Entry-Level Option:*** These solid raised beds offer dependable quality at an affordable price.
- ***Durable Timber Construction:*** UK crafted from planed, sustainably sourced Scandinavian wood, each plank is 15cm high and 2cm thick. Slow-grown for added strength and longevity.
- ***Protected Against the Elements:*** High-pressure treated with a safe wood preservative for lasting resistance against fungal decay and wood-boring insects.
- ***2 Year Structural Guarantee:*** These raised beds come with a 2 year structural guarantee for peace of mind.
- ***Easy-to-Assemble Kits:*** Each kit includes pre-drilled planks, internal wooden corner fixing posts, zinc-plated screws, and full instructions for quick and simple assembly. Beds do not include a base.
- ***Optional Finishing Touch:*** Add optional capping (2cm H x 5.5cm W) for a refined, elegant finish.

£9.95

HARROD STANDARD WOODEN RAISED BEDS

Our award winning mid-range beds combine quality design and UK workmanship with value for money and performance. Highly acclaimed for their thick, planed planks that are slow-grown for greater strength and treated for longer lasting protection.

- ***Superior UK Craftsmanship:*** Made from planed, sustainably sourced Scandinavian wood, each plank is 15cm high and 3.5cm thick. Slow-grown for added strength, these planks are built to last.
- ***Long-Lasting Protection:*** Our wood is high-pressure treated with a safe preservative, ensuring long-term resistance to fungal decay and wood-boring insects.
- ***3 Year Structural Guarantee:*** We're so confident in the durability of our raised beds that they come with a 3 year structural guarantee.
- ***Complete Kit for Easy Assembly:*** Each kit includes pre-drilled planks, internal wooden corner fixing posts, zinc-plated screws, and full instructions, making assembly straightforward and hassle-free. Beds do not include a base.
- ***Optional Elegant Capping:*** Add the optional capping (2.5cm H x 7cm W) for a stylish finish that's also practical, offering a comfortable resting place for tools or hands.

HARROD SUPERIOR WOODEN RAISED BEDS

Superior Wooden Raised Beds are the pinnacle of the Harrod Horticultural range, offering strength, style, and long-term performance. UK made with super thick Swedish timber and decorative corner posts, these beds are designed for gardeners who value both aesthetics and functionality.

- ***Super Thick Timber:*** Made from planed, sustainably sourced Scandinavian wood, each plank is 20cm high and 3.5cm thick. Slow grown for added strength, the planks are built to last.
- ***Reinforced Stability:*** The 10cm square corner posts provide superior strength, supported by high-quality aluminium joining brackets for extra durability.
- ***Enhanced Protection:*** High-pressure treated with a safe wood preservative, the timber offers lasting resistance to fungal decay and wood-boring insects.
- ***5 Year Structural Guarantee:*** We back our Superior raised beds with a 5 year structural guarantee, ensuring long-term reliability.
- ***Complete Kit for Easy Setup:*** Each kit includes planks, corner posts, aluminium brackets, stainless steel screws, and full instructions for straightforward assembly. Beds do not include a base.
- ***Optional Comfortable Capping:*** Add the optional capping (5cm H x 10cm W) for a stylish finish that doubles as a comfortable seat while you work.

MODULAR METAL RAISED BEDS

BUY 1 GET 1 HALF PRICE

Our best-selling Modular Metal Raised Beds are an Instagram favourite, offering stylish and versatile planting solutions. The round bed is perfect for growing fruit, veg, or flowers, while the 4-in-1 bed allows for flexible layouts to suit your garden's space. Crafted from durable, powder-coated steel with smooth, safe edges, these raised beds combine modern looks with practicality, helping you create a thriving garden with ease.

- ***Durable Construction:*** Crafted from 0.6mm thick galvanised steel panels, ensuring robust and long-lasting performance.
- ***Long-Lasting Finish:*** Powder-coated in cream or green for a durable, attractive look that resists the elements.
- ***Safe and Smooth Edges:*** Rolled steel edges with a push-on rubber safety strip ensure a secure and polished finish.
- ***Secure Assembly:*** Features strong stainless-steel fixings for reliable and sturdy construction.
- ***Ideal Size for All Gardens:*** At 40cm high, the 4-in-1 Raised Bed is perfect for convenient growing and gardening - see configuration sizes on right page. The Round Raised Beds measure 80cm in diameter and 43cm in height, providing ample growing space in a compact footprint.

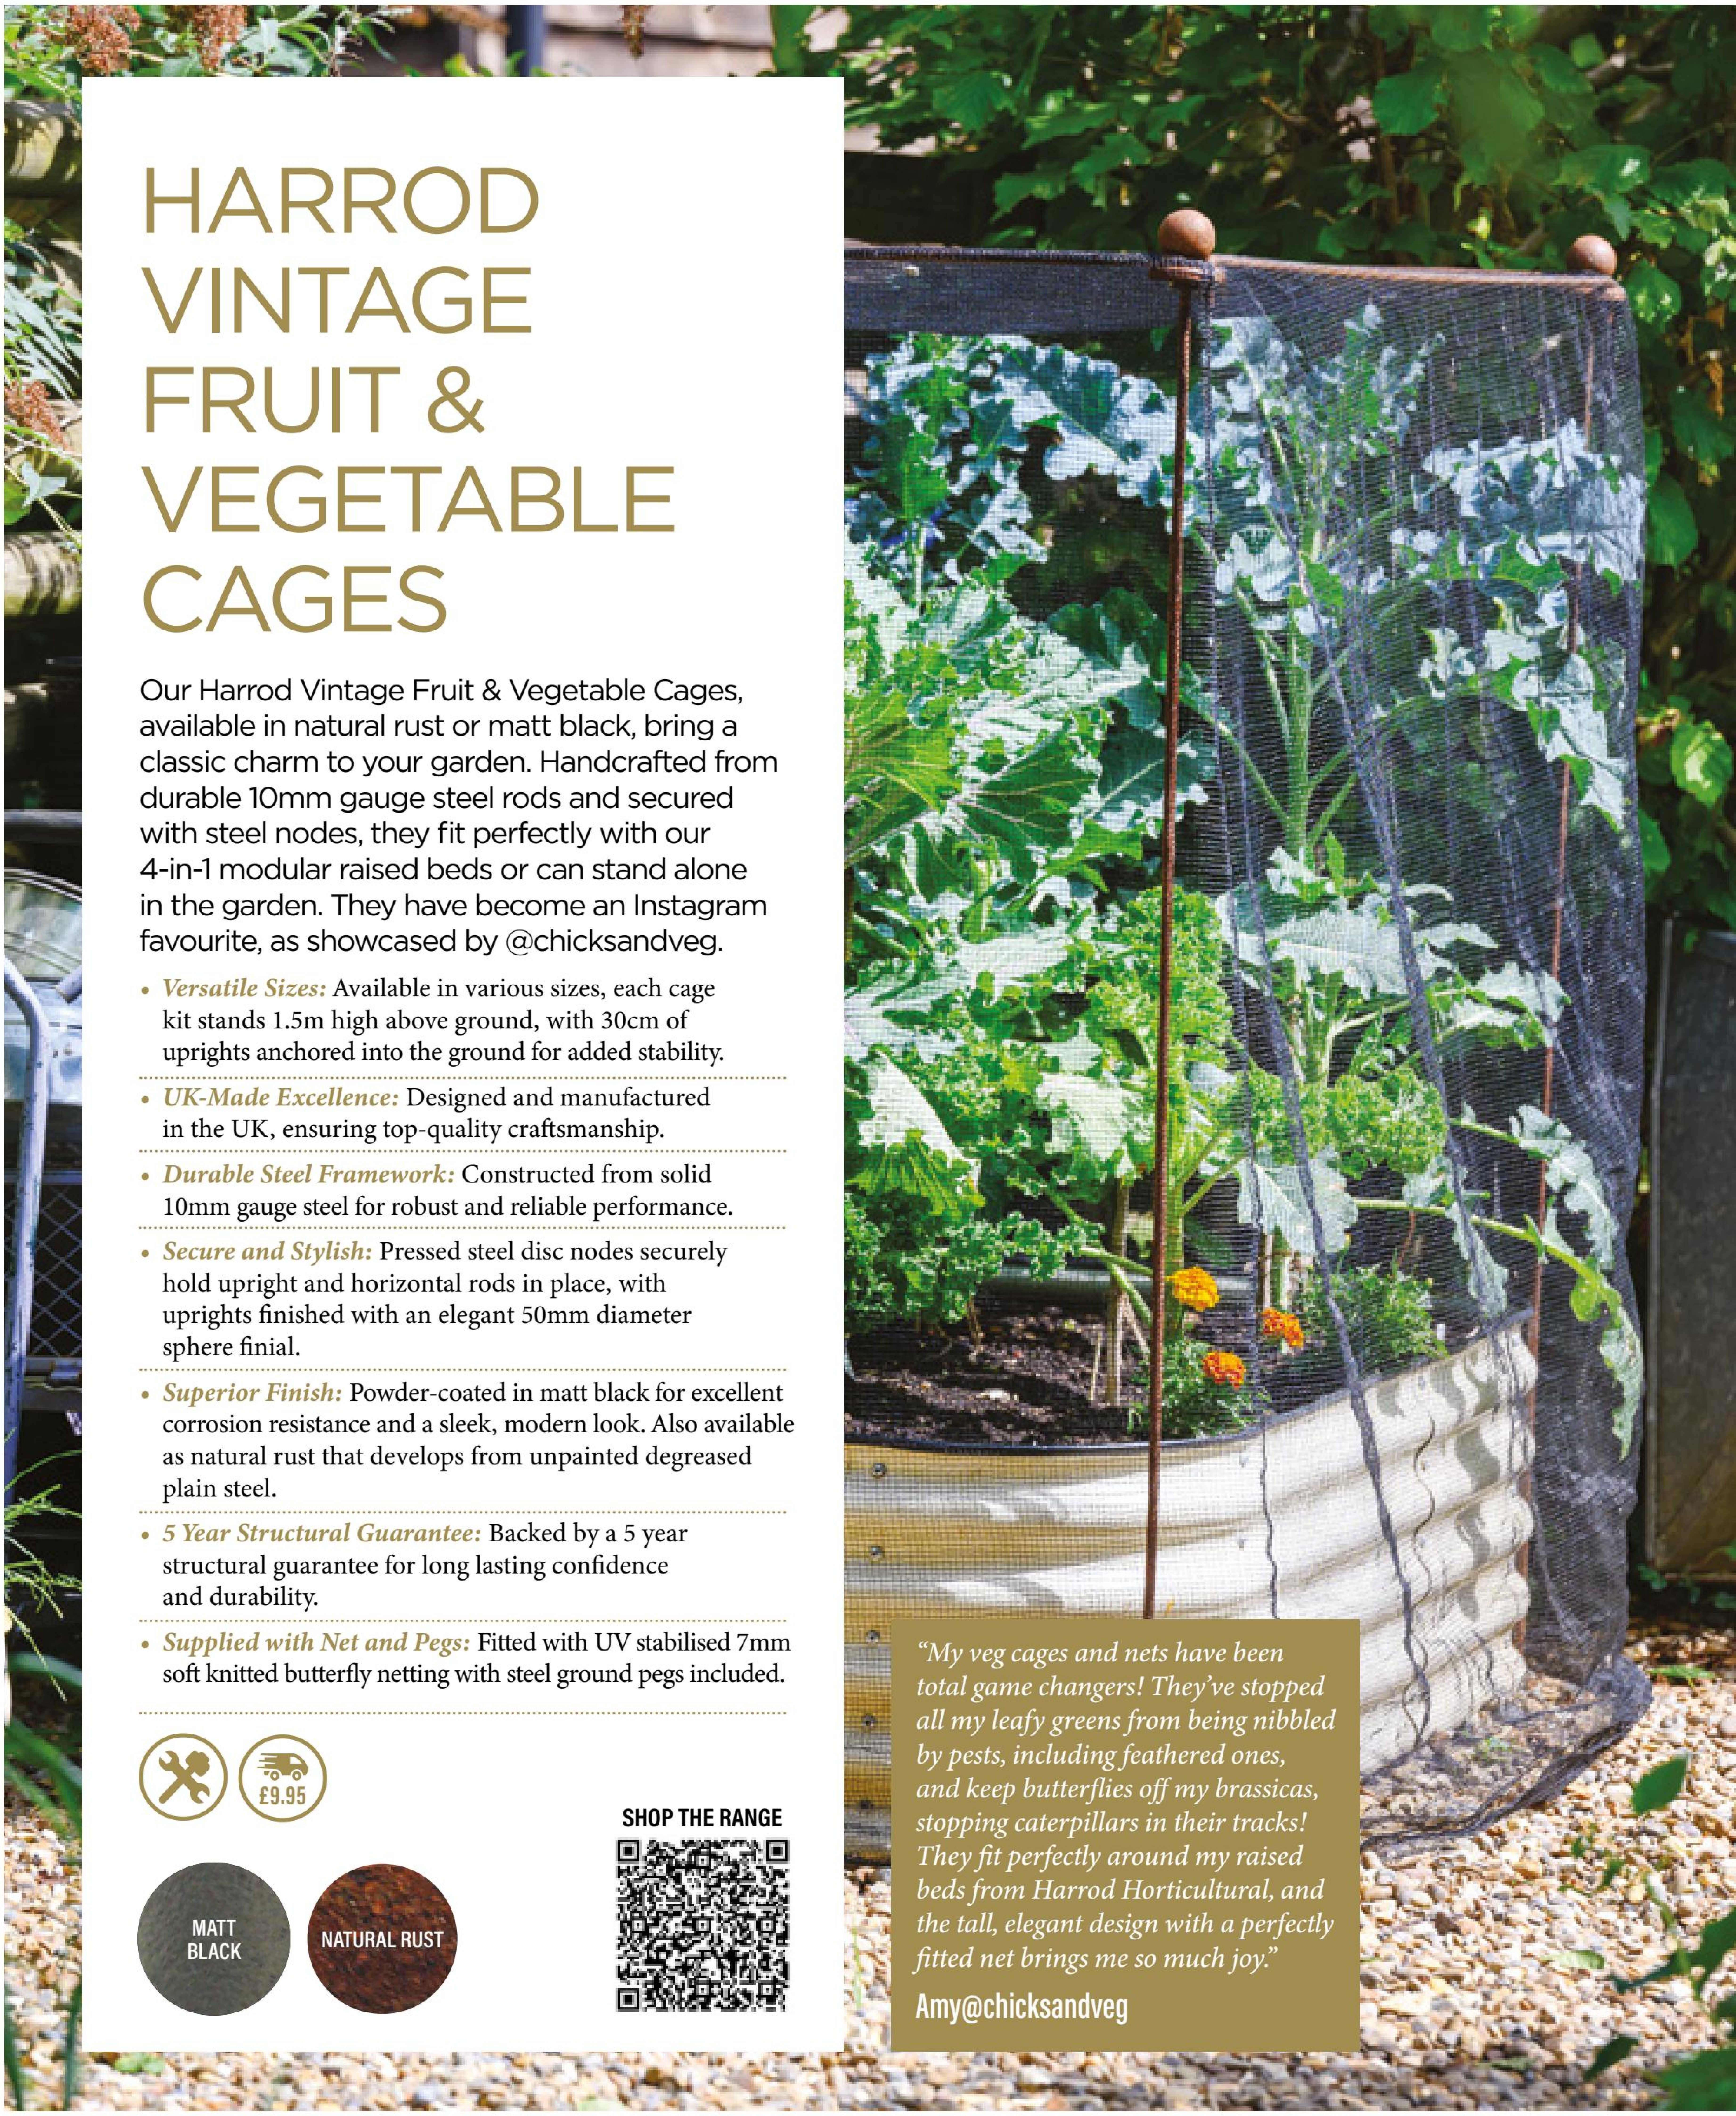
"I was desperately looking for raised beds that had some height, that looked good and after having wooden beds for years, something that didn't rot or require repair and maintenance! When I found these 4-in-1 beds I was smitten. These are modular meaning they come in pieces and you can make them into a few different shapes such as square or narrow and wide rectangles.

I became a little addicted to them and now have 8 to fill my patch perfectly. They create such a nice neat space and I just adore watching them fill with colourful veg."

Amy@chicksandveg



HARROD VINTAGE FRUIT & VEGETABLE CAGES

Our Harrod Vintage Fruit & Vegetable Cages, available in natural rust or matt black, bring a classic charm to your garden. Handcrafted from durable 10mm gauge steel rods and secured with steel nodes, they fit perfectly with our 4-in-1 modular raised beds or can stand alone in the garden. They have become an Instagram favourite, as showcased by @chicksandveg.

- ***Versatile Sizes:*** Available in various sizes, each cage kit stands 1.5m high above ground, with 30cm of uprights anchored into the ground for added stability.
- ***UK-Made Excellence:*** Designed and manufactured in the UK, ensuring top-quality craftsmanship.
- ***Durable Steel Framework:*** Constructed from solid 10mm gauge steel for robust and reliable performance.
- ***Secure and Stylish:*** Pressed steel disc nodes securely hold upright and horizontal rods in place, with uprights finished with an elegant 50mm diameter sphere finial.
- ***Superior Finish:*** Powder-coated in matt black for excellent corrosion resistance and a sleek, modern look. Also available as natural rust that develops from unpainted degreased plain steel.
- ***5 Year Structural Guarantee:*** Backed by a 5 year structural guarantee for long lasting confidence and durability.
- ***Supplied with Net and Pegs:*** Fitted with UV stabilised 7mm soft knitted butterfly netting with steel ground pegs included.

HARROD FITTED HOOPS & COVER KITS

FOR OUR RAISED BEDS

Designed to fit our wooden and metal raised beds, these Hoop and Cover Kits offer versatile, quick garden protection.

- ***Sturdy and Rust-Resistant:*** Heavy-duty galvanised steel hoops provide reliable rust resistance and fit securely inside our beds with the supplied brackets and screws.
- ***Tailored to Fit:*** All hoops have a 19mm diameter, with varying heights depending on bed width. 2 hoops for 1.2m long beds and 3 hoops for 1.8m and 2.4m long beds.
- ***Flexible Cover Options:*** All fitted covers can be secured inside the bed using ground pegs (not supplied see page 40) except insect-mesh that fits outside the bed and secures with included hooks.

PICK YOUR NETTING COVER!

Butterfly Net - Effective Pest Control: Crafted from a strong, yet soft and flexible UV-stabilised 7mm knitted mesh that keeps Cabbage White Butterflies and birds at bay, ensuring your crops stay healthy and untouched.

Mesh Vented PVC - Versatile Protection: Combines thick UV-stabilised PVC with large, dual-skinned zipped panels on both sides. Easily switch between full insect-mesh ventilation or completely open the cover for direct access, giving you control over airflow and temperature.

Insect Mesh - Comprehensive Pest and Weather Shield: Features an ultra-fine 0.25mm x 0.8mm mesh that blocks even the smallest pests while allowing essential air and water circulation. UV-stabilised for long-term use, it also offers shade, weather protection, and guards against mild frosts.

BUILD YOUR OWN

FRUIT & VEGETABLE CAGES

Our award-winning Slot & Lock® connectors and aluminium tubing allow you to create custom crop protection cages. Featuring our RHS Chelsea Product of the Year winning design, this system offers strong, corrosion-resistant tubing and flexible connectors for easy assembly, adjustment, and storage, making it a perfect solution for any grow-your-own gardener on a budget. The wide range of components mean you can tailor your cage to perfectly fit your garden.

STEP-BY-STEP GUIDE TO BUILDING YOUR FRUIT & VEGETABLE CAGE

STEP 1: *Measure your space*

Start by measuring the area you want to protect.

STEP 2: *Decide on the cage height*

Would you prefer a walk-in cage (1.8m), a lower cage (1.5m) or ground cover only for plants like strawberries (0.45m)?

STEP 3: *Choose your framework*

Our durable aluminium tubing is lightweight, rust-resistant, and available in natural or powder coated matt black finishes.

STEP 4: *Pick your connectors*

Our award-winning Slot & Lock® connectors are designed for a sturdy and reliable structure, using stainless steel screws for a firm hold in all weather conditions.

STEP 5: *Select your netting*

Choose from butterfly netting, bird netting, or specialist netting options, depending on your crops and cage height.

STEP 6: *Add the finishing touches*

Don't forget essential accessories like ground pegs and brace kits for extra rigidity. For hard ground, our hole former tool makes installation easy by preparing the perfect-sized hole.

HARROD SLOT & LOCK® CONNECTORS

Exclusive 'SLOT & LOCK' system. Durable and reusable black nylon connectors (superior to moulded polypropylene) allow our 16mm diameter tubing to **slot** in by 40mm. Effortlessly **lock** the connector to the tubing with the supplied stainless steel screws that will keep the frame rigid at all times and in all weathers. Assembly and disassembly is extremely quick.

HARROD SLOT & LOCK®

STORM PROOF CAGES

These storm-proof vegetable cages feature award-winning clips that release under extreme winds to prevent frame damage. Available in a 1.8m walk-in or 1.5m portable design, with strong aluminium tubing, Slot & Lock® connectors, and fitted butterfly netting for effective crop protection.

- ***Storm-Proof Protection:*** Engineered to withstand severe weather, these vegetable cages use innovative net clips designed to prevent frame damage by detaching under extreme wind and snow conditions.
- ***Flexible Design Options:*** Available in a 1.8m walk-in model with a zip strip access point for easy access and corner braces for extra rigidity or a more portable 1.5m version, perfect for moving around your garden as needed. All heights are above ground.
- ***Award-Winning Technology:*** The Harrod Storm-Proof Clips hook through the netting and attach to the cage horizontal rods, releasing when strong winds or heavy snow hit. This prevents the framework from bending while still keeping the netting in place over your crops.
- ***Secure and Sturdy Frame:*** The Harrod Slot & Lock® Connectors ensure a rigid structure by tightly locking the aluminium tubing in place with stainless steel screws.
- ***Durable Construction:*** Crafted from corrosion-resistant 16mm diameter x 1.2mm aluminium tubing with capped uprights, this framework is designed for long-lasting performance and resilience. Natural finish available in both designs and powder coated matt black for 1.8m kits.
- ***Complete Pest Protection:*** The fitted butterfly net, made from heavy-duty 7mm UV stabilised soft knitted mesh with neatly stitched seams, is securely suspended within the frame to protect crops from pests while allowing light and airflow. All kits complete with cable ties, the 1.8m kit also includes steel ground pegs.

HARROD ORIGINAL SLOT & LOCK® CAGES

Harrod Slot & Lock® cages are available in various heights - 45cm for strawberries, 1.2m and 1.5m for vegetables - and can be easily moved around your garden. Choose from powder coated matt black or natural aluminium finishes. Kits range from 1 x 1m to 6 x 6m, and include heavy-duty butterfly or bird netting, with Net Claw Pegs for easy access. The perfect cages to protect your crops at home, or at the allotment.

- ***Secure Connections:*** Harrod Slot & Lock® Connectors ensure a super rigid frame by locking tubing tightly with stainless steel screws.
- ***Durable Aluminium Framework:*** Made from corrosion-resistant 16mm diameter aluminium tubing (1.2mm wall thickness) and available in natural or matt black powder coated finishes. Each cage has 25cm extra height to be anchored into the ground.
- ***Heavy-Duty Netting:*** For 1.2m and 1.5m high vegetable cages, the 7mm soft knitted butterfly netting is UV stabilised 100% polyethylene. For larger cages up to 3m x 3m, netting is pre-fitted.
- ***Bird Netting Option:*** For 0.45m high strawberry cages, we provide 20mm diamond knitted mesh bird netting, made from UV stabilised high-density polyethylene.
- ***Easy Net Handling:*** Harrod Net Claw Pegs allow quick attachment and removal of netting, reducing damage and making access easier.
- ***Optional Brace Kits:*** Available for added rigidity. See page 23.

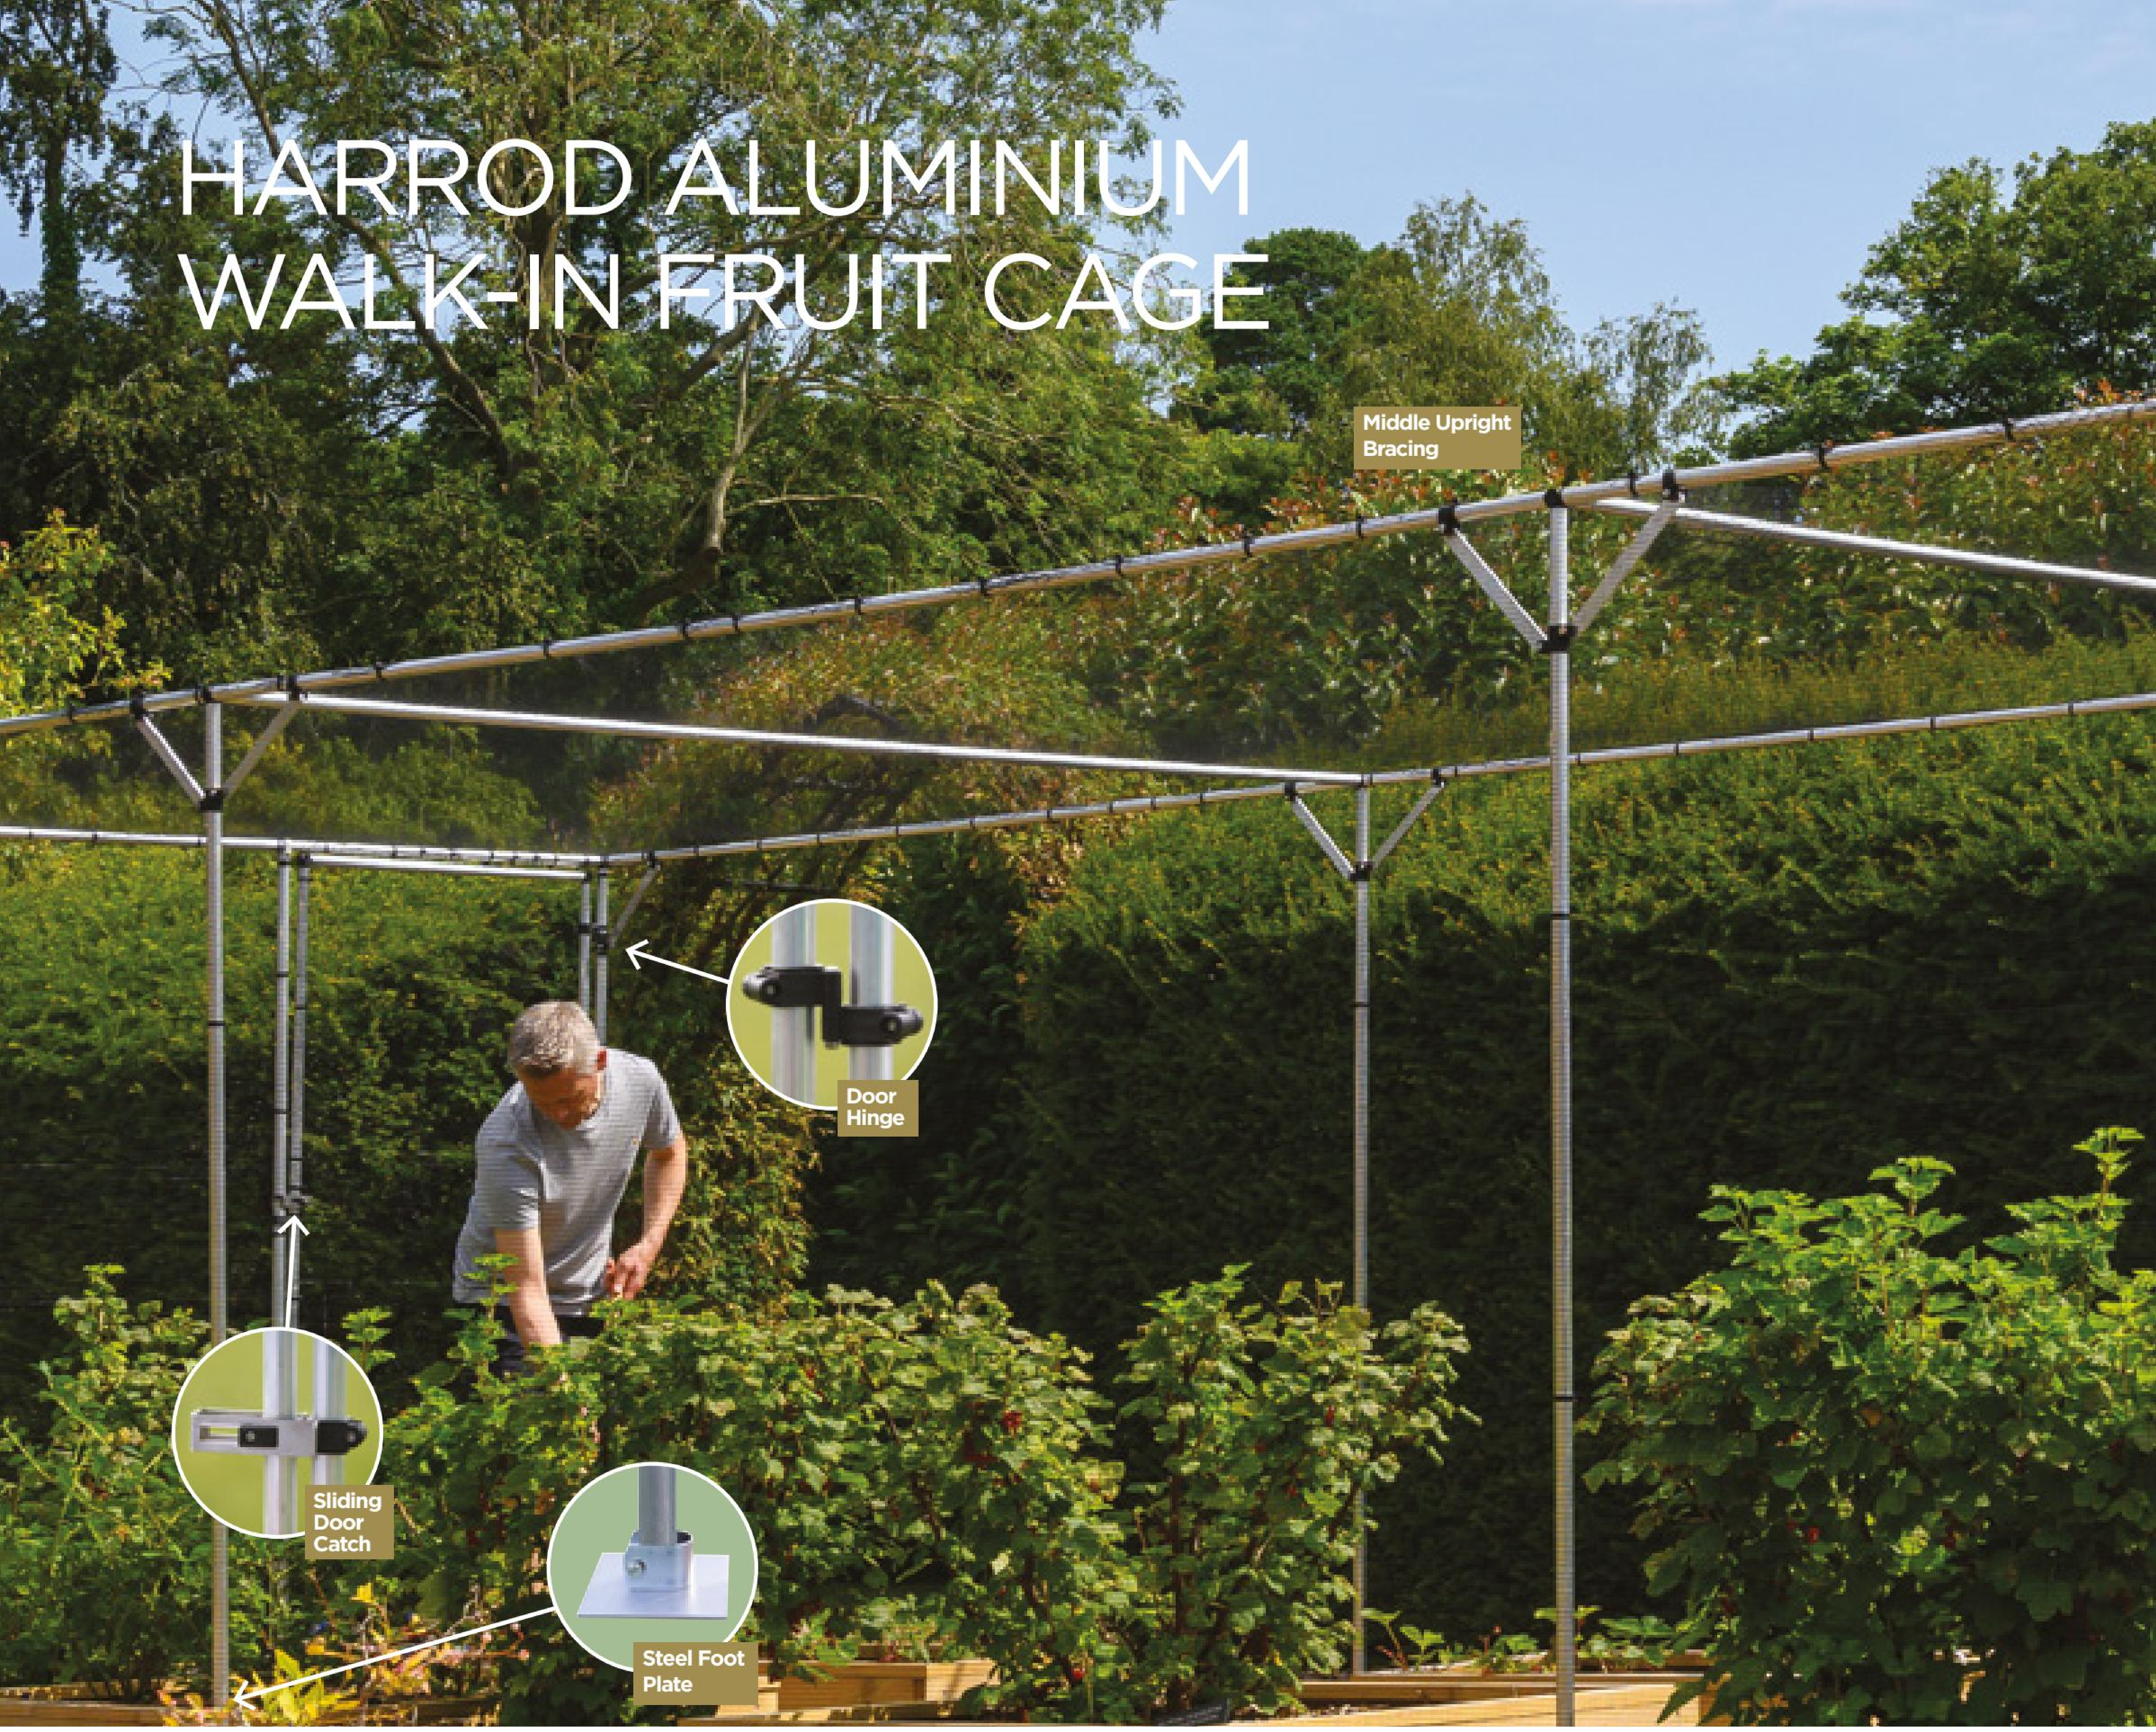
HARROD ALUMINIUM WALK-IN FRUIT CAGE



Using an aluminium fruit cage provides several key benefits for protecting your crops. Aluminium cages are cost-effective, with a natural non-rusting finish ensuring durability and minimal maintenance. They feature heavy-duty side netting and high-quality anti-bird roof netting, effectively shielding your fruit from pests. With 2 metres of height, they offer ample growing space and easy access via a door included in the kit. The strong 25mm diameter framework is the strongest in its class, making these cages a reliable choice for both flat and slightly sloping gardens. Custom designs are available for uneven terrain. Plus, they come with a long guarantee and are proudly manufactured in the UK.

- ***Robust Aluminium Framework:*** UK crafted from extra strength 25mm diameter x 1.6mm thick wall aluminium with a natural, non rusting finish that fits together with rigid tubing connectors to stand a generous 2m above ground.
- ***10 Year Framework Guarantee:*** Superior quality is backed up with a reassuring 10 year anti-corrosion framework guarantee.
- ***Premium Quality Netting:*** Features 16mm square mesh rigid side netting and high quality soft 20mm diamond mesh roof netting, both UV stabilised. Net ties, clips and ground pegs supplied.
- ***Custom Netting Options:*** Anti-pigeon and butterfly netting available on request.
- ***Versatile Door Kit:*** The 1.95m high x 91cm wide door is fitted with a hinge to keep the door rigid, opening inwards or outwards, and has a stainless-steel sliding catch. It can be installed on any side of the cage.
- ***Easy Construction:*** An extra 30cm on the uprights is inserted into the ground, with extra rigidity in softer ground or windy sites made possible by optional steel foot plates (advice available on number required) and brace kits. As a guide for brace kits, cage sizes up to 6m square require braces for the corners only, with larger size cages having at least the middle upright braced on sides over 6m. Braces are universal and work in corners or on middle uprights.

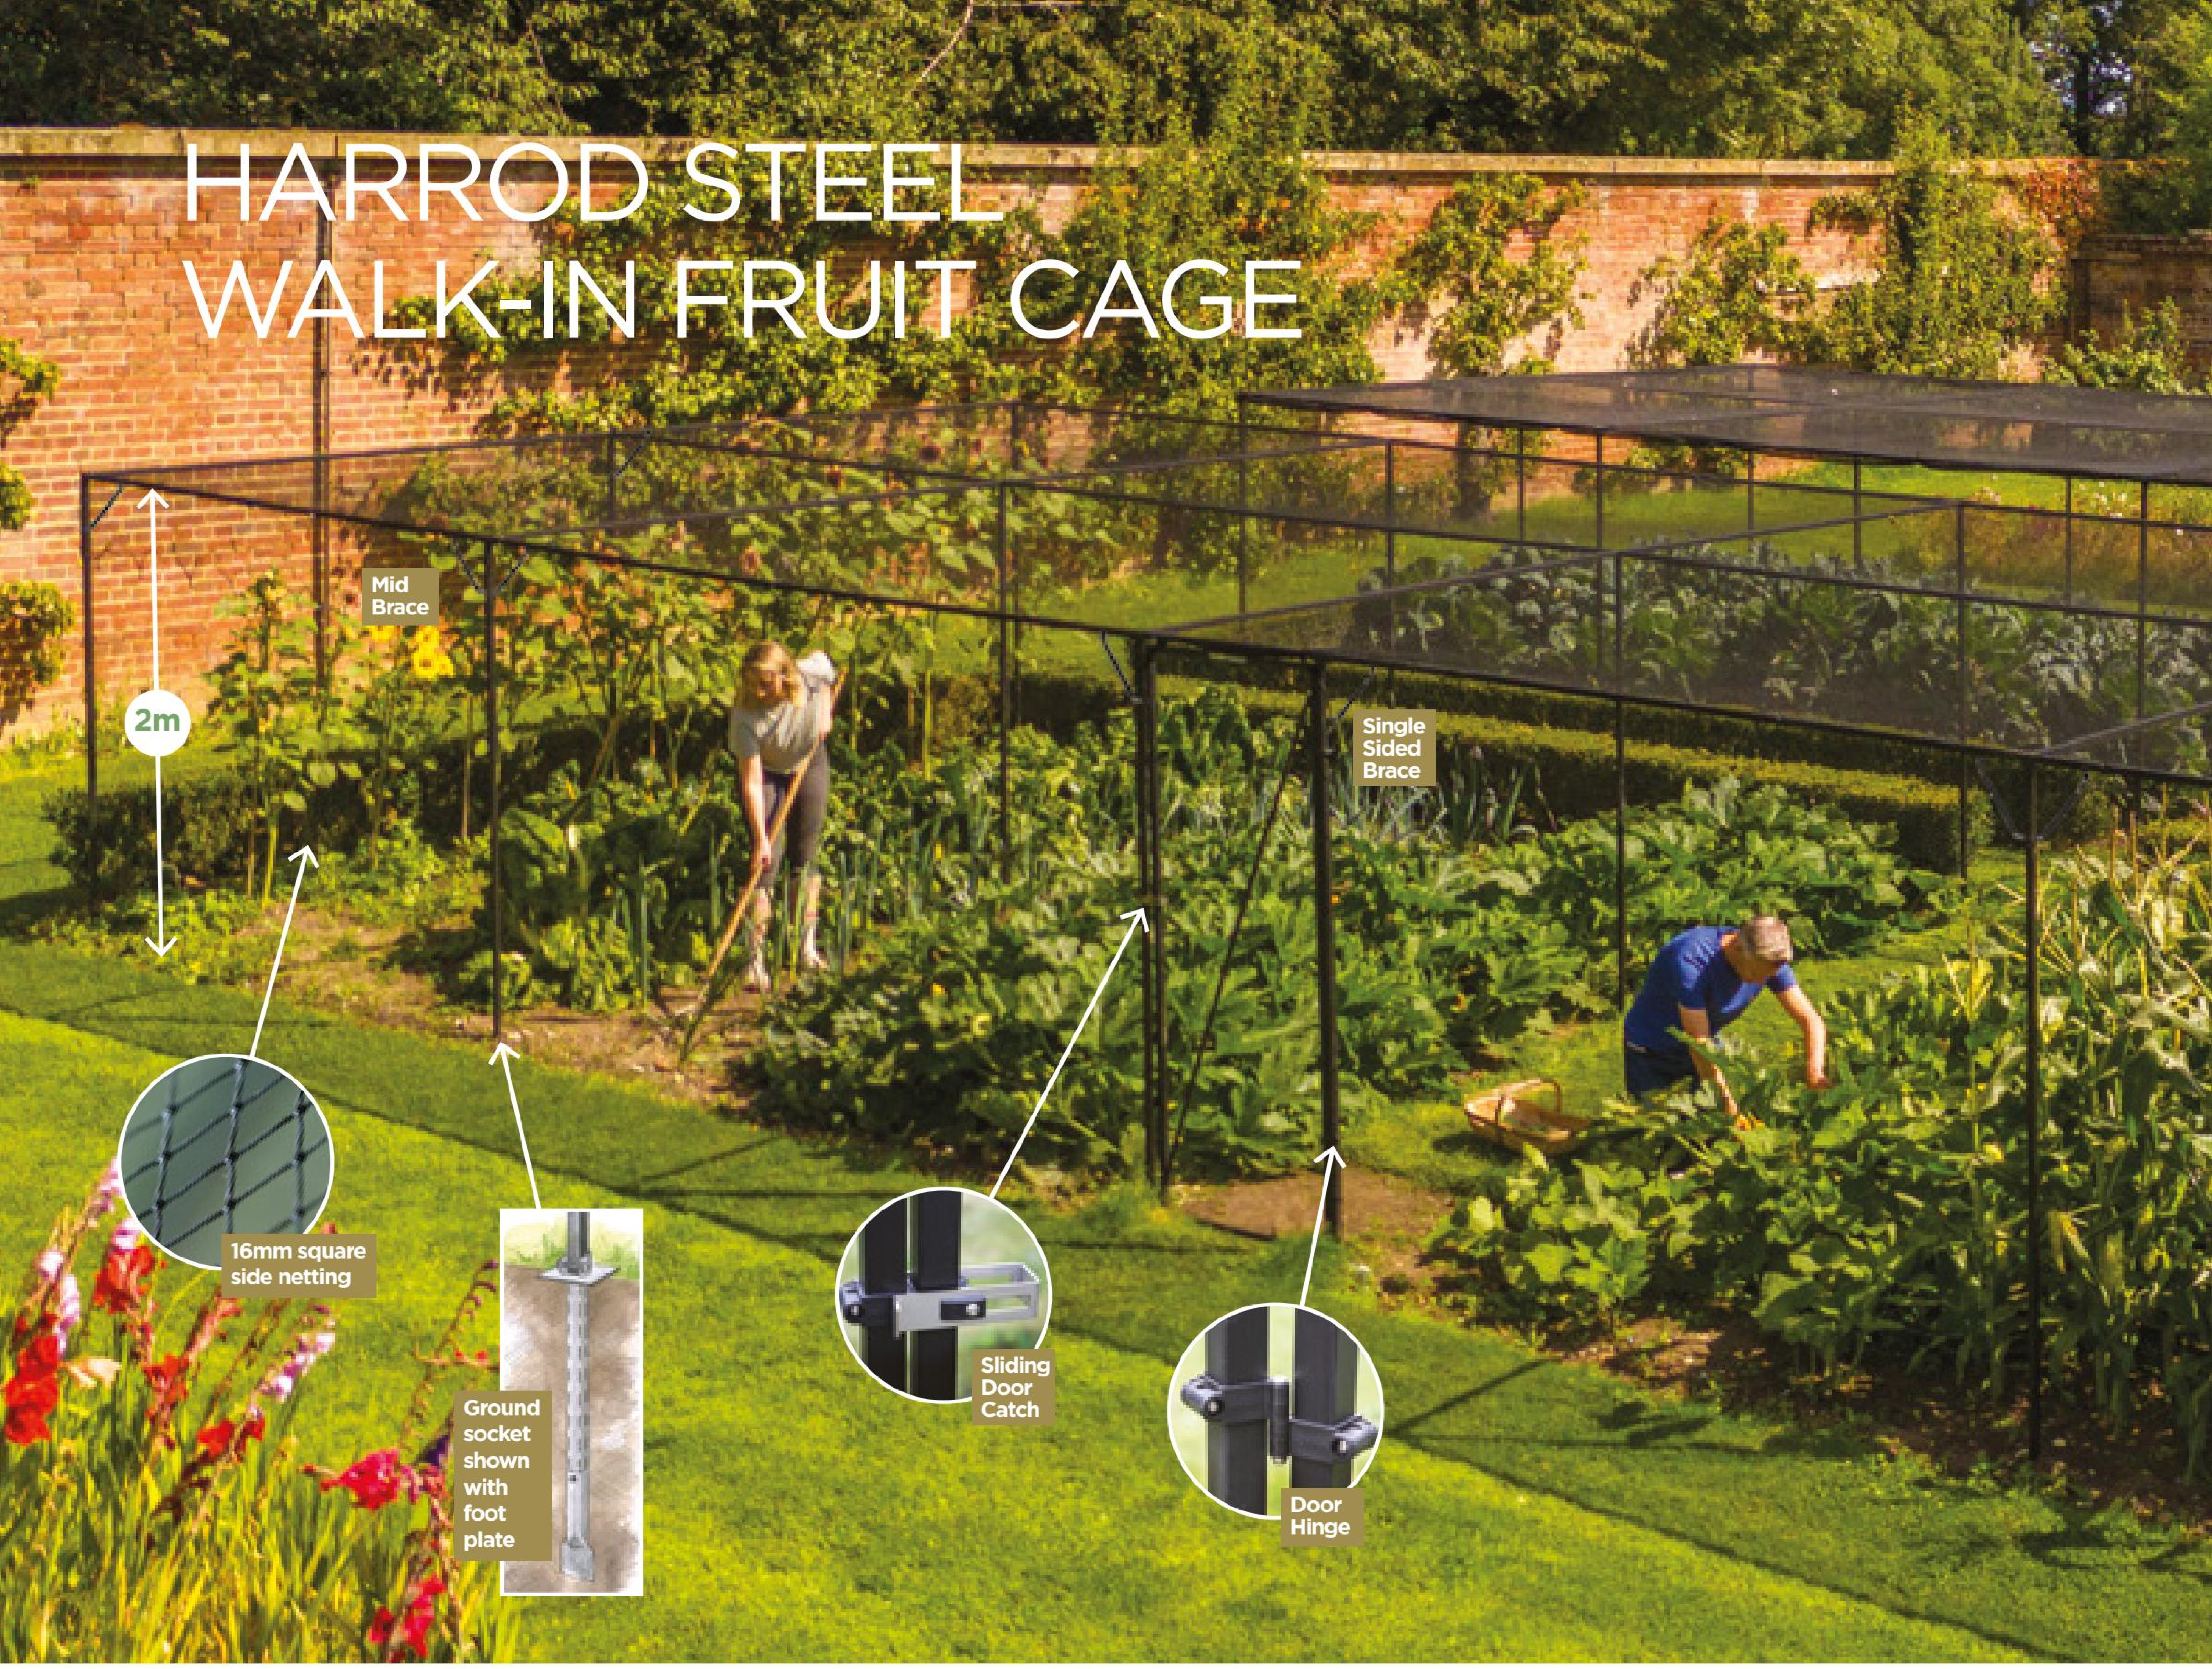
HARROD STEEL WALK-IN FRUIT CAGE



Steel fruit cages provide robust, reliable protection for your garden. Designed for durability, these cages keep birds and pests out with heavy-duty steel frameworks and high-quality mesh netting. Ideal for exposed locations, they offer 2 metres of growing height and easy access through a walk-in door. With a range of standard sizes and custom designs available for uneven or sloping sites, there is a perfect fit for every garden. There are optional accessories like footplates and brace kits, so that you can enhance stability and convenience, making gardening both secure and enjoyable.

- ***Durable Steel Framework:*** UK crafted from UK-sourced 1.5mm thick wall, 25mm square steel, this framework is galvanised and powder-coated in textured matt black for a long-lasting, attractive finish.
- ***10 Year Framework Guarantee:*** Enjoy peace of mind with a 10 year guarantee on the steel framework, ensuring lasting durability.
- ***Sturdy Construction:*** Steel-reinforced connectors fit neatly inside the bars, offering ultimate stability and a flush, clean appearance.
- ***Effective Netting Protection:*** Features premium 16mm square mesh rigid side netting and high-quality soft 20mm diamond mesh roof netting (19mm square knotted mesh on Decorative Cages, see pages 32-33). Net ties, clips and ground pegs included.
- ***Custom Netting Options:*** Anti-pigeon and butterfly netting available on request.
- ***Versatile Door Kit:*** The 1.95m high x 78cm wide door can be positioned on any side, with extra strength provided by a diagonal steel support brace and secure stainless steel sliding catch to keep the door rigid.

Steel Ground Socket GDN-797 £7.95

Driving Cap (only one required) GDN-798 £7.95

Steel Foot Plate GDN-108 £14.00

Optional Brace Kits (not applicable to Decorative Cages)

Braces give extra rigidity when cages are exposed to high winds or softer soil. As a guide, cages up to 6m square require braces for the corners only, whilst larger size cages should have at least the middle upright braced on sides over 6m. The single sided brace is ideal either side of where a door prevents a corner brace or mid brace.

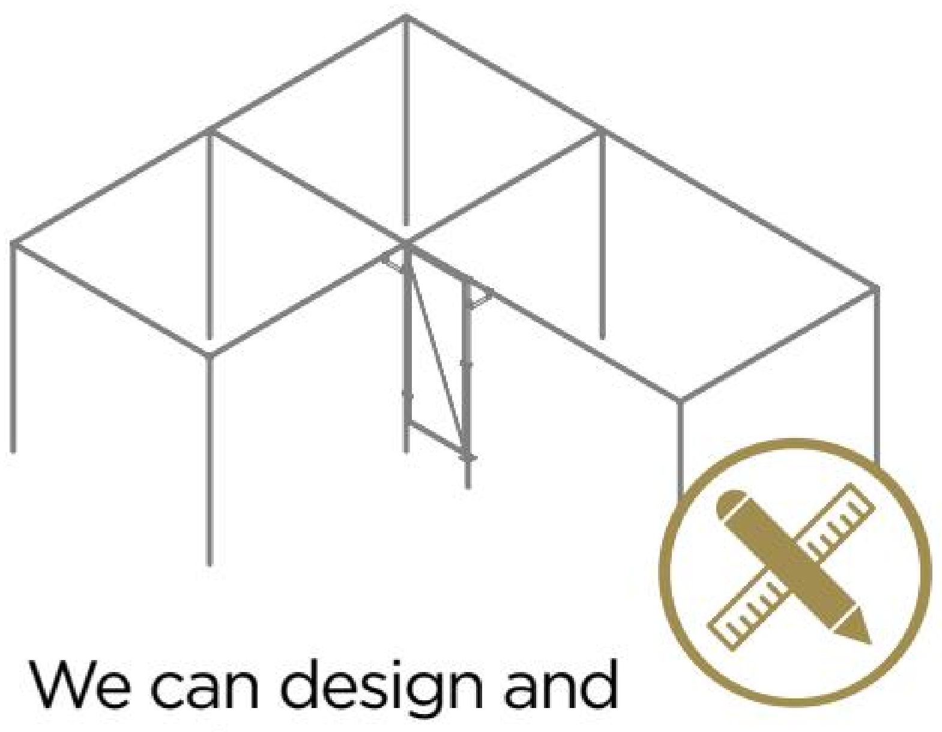
Corner Brace GDN-102 £45.00

Mid Brace GDN-101 £45.00

Single Sided Brace GDN-107 £40.00

Optional Additional Door Kit GDN-105 £130.00

BESPOKE STEEL WALK-IN FRUIT CAGES



We can design and manufacture a cage to almost any size including multi-doored, slopes, angled sides and totally bespoke designs. Please call **0333 400 1444** or email **madetomeasure@harrod.uk.com**

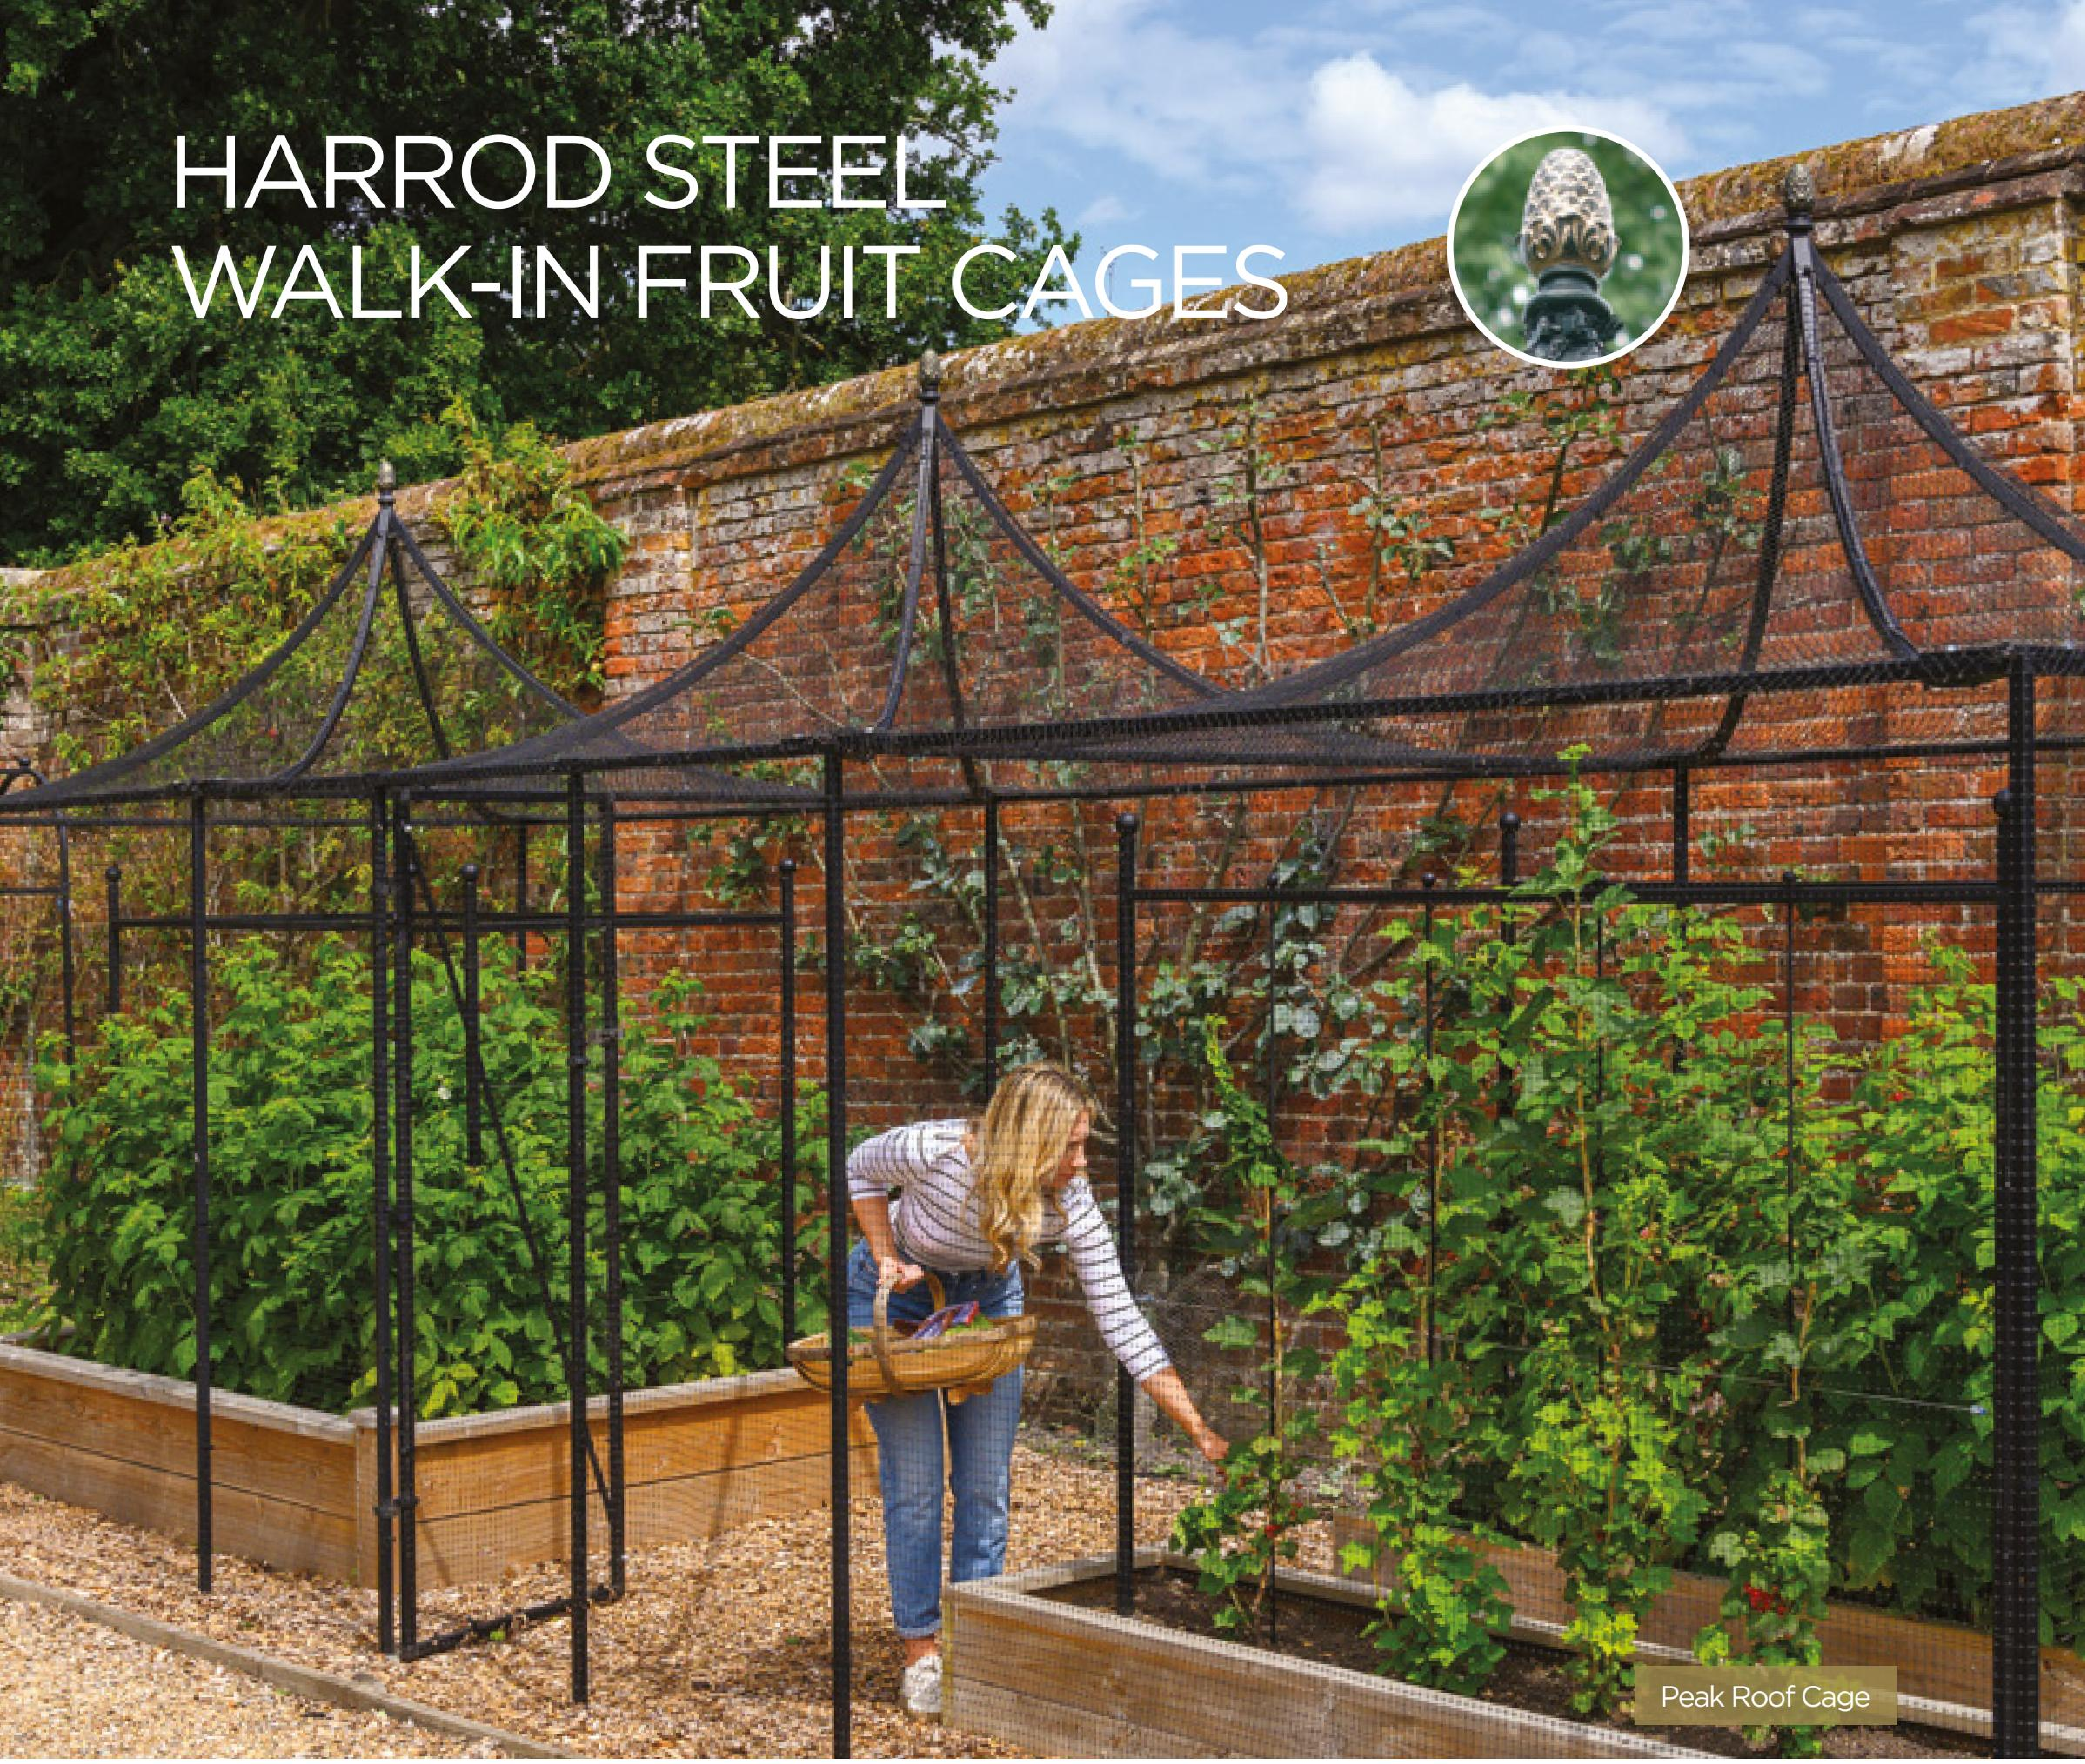
HARROD STEEL WALK-IN FRUIT CAGES



Peak Roof Cage

Having a decorative roof on your steel fruit cage not only enhances its visual appeal but also offers practical benefits. Choose from options like Pavilion, Dome and Peak styles to complement your garden's design. A decorative roof provides extra height for fruit bushes and trees with a maximum roof clearance of either 2.8m or 3.3m as well as withstanding snowfall due to its shape. This upgrade transforms a functional structure into a stylish feature of your garden, blending aesthetics with practicality.

Cage kit contents - see pages 30-31.

HARROD STEEL HOOPS

High Top Hoops are perfect for creating cloches, small polytunnels, and providing up to 1 metre of growing height for taller plants. Available in five sizes, they span raised beds or plant rows from 48cm to 168cm.

- ***Versatile Sizing:*** Choose from 5 hoop sizes to suit various gardening needs.
- ***Durable Construction:*** Made from 19mm diameter galvanised tubular steel for strength.
- ***Maximise Growth:*** High top design allows ample space for plant growth.
- ***Secure Support:*** Optional heavy duty steel Ground Anchors insert 45cm into the soil to provide stability, ideal for windy sites or soft soil.
- ***Extra Rigidity:*** Optional Hoop Linking Rods add support for netting and structural strength between hoops. Use 2 rods per span for netting and 1 rod for polythene or fleece.
- ***Additional Height:*** Optional Hoop Extension Kits insert 30cm into the ground to provide more height for particularly tall crops. They also double up as a ground anchor.
- ***Value Packs:*** Save up to £29 with our Extra Value 3 and 6 hoop sets.
- ***Compatible with Raised Beds:*** Perfect for raised beds or open ground use.
- ***Flexible Coverage:*** Pair with your choice of netting for optimal crop protection - see page 40.
- ***Designed and Manufactured in the UK.***

POPADOME PROTECTION SYSTEMS

HARROD HORTICULTURAL EXCLUSIVE

The award-winning Popadome Crop Protection Frame and Covers system offers a complete solution for safeguarding your fruit and vegetables from pests and the elements. Kitted with framework, 10mm mesh butterfly netting, pegs and sewn in copper strip to deter slugs and snails, there is also optional choices of Fleece, Polyethylene, or Insect Mesh covers that zip on to provide year-round protection. Lightweight, easy to assemble, and suitable for gardens and allotments, the Popadome is perfect for both small plots and larger areas when used in multiple arrangements.

- *Comprehensive Protection:* Defend crops from pests, birds, and harsh elements with UV stabilised Butterfly Netting, Fleece, insect mesh and Polyethylene covers.
- *Durable & Lightweight:* UV-treated fibreglass frame weighs just over 1kg and is easy to assemble and move.
- *Secure Anchoring:* Comes with 13 pegs that are 20cm L for stability; ideal for use in multiple setups for larger areas.
- *Slug & Snail Defence:* Sewn-in copper strip deters slugs and snails naturally.
- *Versatile Use:* Protect everything from seeded lawns to mature plants.
- *Easy Access:* Zip-opening with fold-back netting for quick access to plants.
- *Portable & Compact:* Includes carry case for convenient storage.

GARDEN NETTING

Garden netting is essential for protecting your home-grown fruits and vegetables from pests. Harrod Horticultural originally started as a Netting Manufacturer. We have been supplying netting since 1954, so we know a thing or two about getting the right netting for the job! We offer high-quality solutions to safeguard your crops. Our range includes anti-bird netting, fine mesh for butterflies and robust insect mesh, all available by the linear metre or in money-saving Extra Value Packs.

BUTTERFLY NETTING

- ***Purpose:*** Prevents butterflies from laying eggs on brassicas and other plants, reducing caterpillar damage.
- ***Features:*** UV stabilised 7mm soft mesh to block butterflies while allowing air and light to reach plants.

BIRD NETTING

- ***Purpose:*** Protects fruit and vegetable crops from birds.
- ***Features:*** Durable and UV- stabilised to withstand outdoor conditions. Lightweight 20mm diamond soft mesh for roof netting and 16mm x 16mm rigid plastic mesh for side netting. All allow pollinating insects through.

INSECT MESH NETTING

- ***Purpose:*** Protects crops from a variety of small insects like caterpillars, carrot fly and cabbage root fly. Allows air and water to circulate.
- ***Features:*** Available in different UV stabilised grades (fine and ultra fine mesh) to block even the smallest pests like whitefly and aphids.

DON'T FORGET...

Our range of netting accessories ensure that your protective netting stays firmly in place, preventing pests from sneaking through in windy conditions.

VEGETABLE SUPPORTS

WHY GROW VERTICALLY?

Vertical vegetable growing offers multiple advantages:

- ***Maximises Space:*** Grow more in less area by going up, not out.
- ***Improves Plant Health:*** Better air circulation reduces insect damage and disease spread.
- ***Prevents Soil Contact:*** Keeps foliage off the ground, reducing soil-borne diseases.
- ***Protects in Windy Areas:*** Sturdy supports prevent damage to tall or heavy plants in windy conditions, protecting stems from breakage and pests.
- ***Easier Harvesting:*** Enjoy upright crops like beans and peas without bending down.

Quality Design

Our frames are made from high-quality, corrosion resistant materials like 16mm aluminium tubing for the Slot & Lock® frames, 10mm solid steel rods for the Vintage designs, and 25mm square steel sections for the Superior Bean Frame. Matt black finishes are powder coated, the Vintage designs develop a rust finish from unpainted steel, whilst the Slot & Lock® Bean/Pea frames are a natural finish. They all feature secure connectors, like our award winning Slot & Lock® connectors, for quick assembly and a rigid frame, even in tough weather. Premium 80mm knotted mesh provides excellent air circulation, easy harvesting access, and strength for season-end clean up. All kits supplied with releasable net ties and galvanised steel ground pegs.

Stylish & Functional Support Frames

Add both support and an ornamental touch with frames like trellises and obelisks for climbing plants. See pages 66-75.

SUPERIOR STEEL GROWING SUPPORTS

Our range of Fruit Support Frames, including best-selling raspberry frames, sturdy apple step over supports and espalier frames for cordon fruit, are designed to help you achieve a bigger, more successful harvest. Exclusively designed and manufactured in the UK, these fully galvanised and powder coated matt black frames are made from high quality steel materials and come with a 10 year framework guarantee.

Each frame is carefully crafted to provide optimal spacing and support for your fruit bushes, canes, and trees, ensuring healthy growth and productivity. A 2mm diameter high strength, galvanised multi-strand steel cable features gripple system tensioners with the espalier and raspberry frames to secure and tension to support up to 400kg of plants. If you're looking for reliable, long lasting plant supports, our fruit frames are the perfect solution.

COMPOSTING

Make garden composting simple and effective with our range of composters, including traditional compost bins and Hotbins. Composting and recycling are crucial for environmental sustainability, and our extensive expertise ensures you get top-quality products that produce rich compost and leaf mould, benefiting both your garden and the planet.

HINTS AND TIPS FOR GETTING STARTED WITH COMPOSTING

- *Choose the right compost bin:* Consider your space and composting needs when selecting between a small or large bin.
- *Layer your materials:* Alternate between green (nitrogen-rich) and brown (carbon-rich) materials for balanced composting.
- *Keep it moist, but not wet:* Your compost should feel like a damp sponge – not too dry, but not soggy.
- *Turn your compost:* Regularly turning the pile will help to aerate it and speed up the decomposition process.
- *Be patient:* Composting is a natural process that takes time. Keep adding to your pile and it will reward you with rich, fertile compost.

HOTBINS

Looking for an easy way to start composting or make your existing heaps more efficient? The HOTBIN composter could be the solution! Available in 100, 200 and 450 litre capacities, the smaller sizes occupy about the same space as a wheelie bin, yet transforms waste into compost at 40 to 60°C.

This easy-to-use system rapidly breaks down food and garden waste, including cooked food and leftovers, producing compost in just 30-90 days. With insulating walls to trap heat from natural bacteria, there's no need for turning, tumbling, or accelerators - and no external power source required.

- Fully insulated walls keep it hot for rapid composting.
- Hinged airtight lid reduces smells and unwanted visitors.
- Helps promote temperatures of 60°C in top layer.
- Integral lid mounted thermometer.
- Air inlet and outlet for effective aeration.
- Aeration valve plate to moderate temperature.
- Biofilter unit to stop any unfriendly smells.
- Aeration base plate to disperse air within the bin.
- Easy to remove hatch door panel to take out mature compost.
- Features a winter kick start heater.
- Includes 25 litre bag of bulking agent & raking stick.
- 3 year manufacturer's warranty.

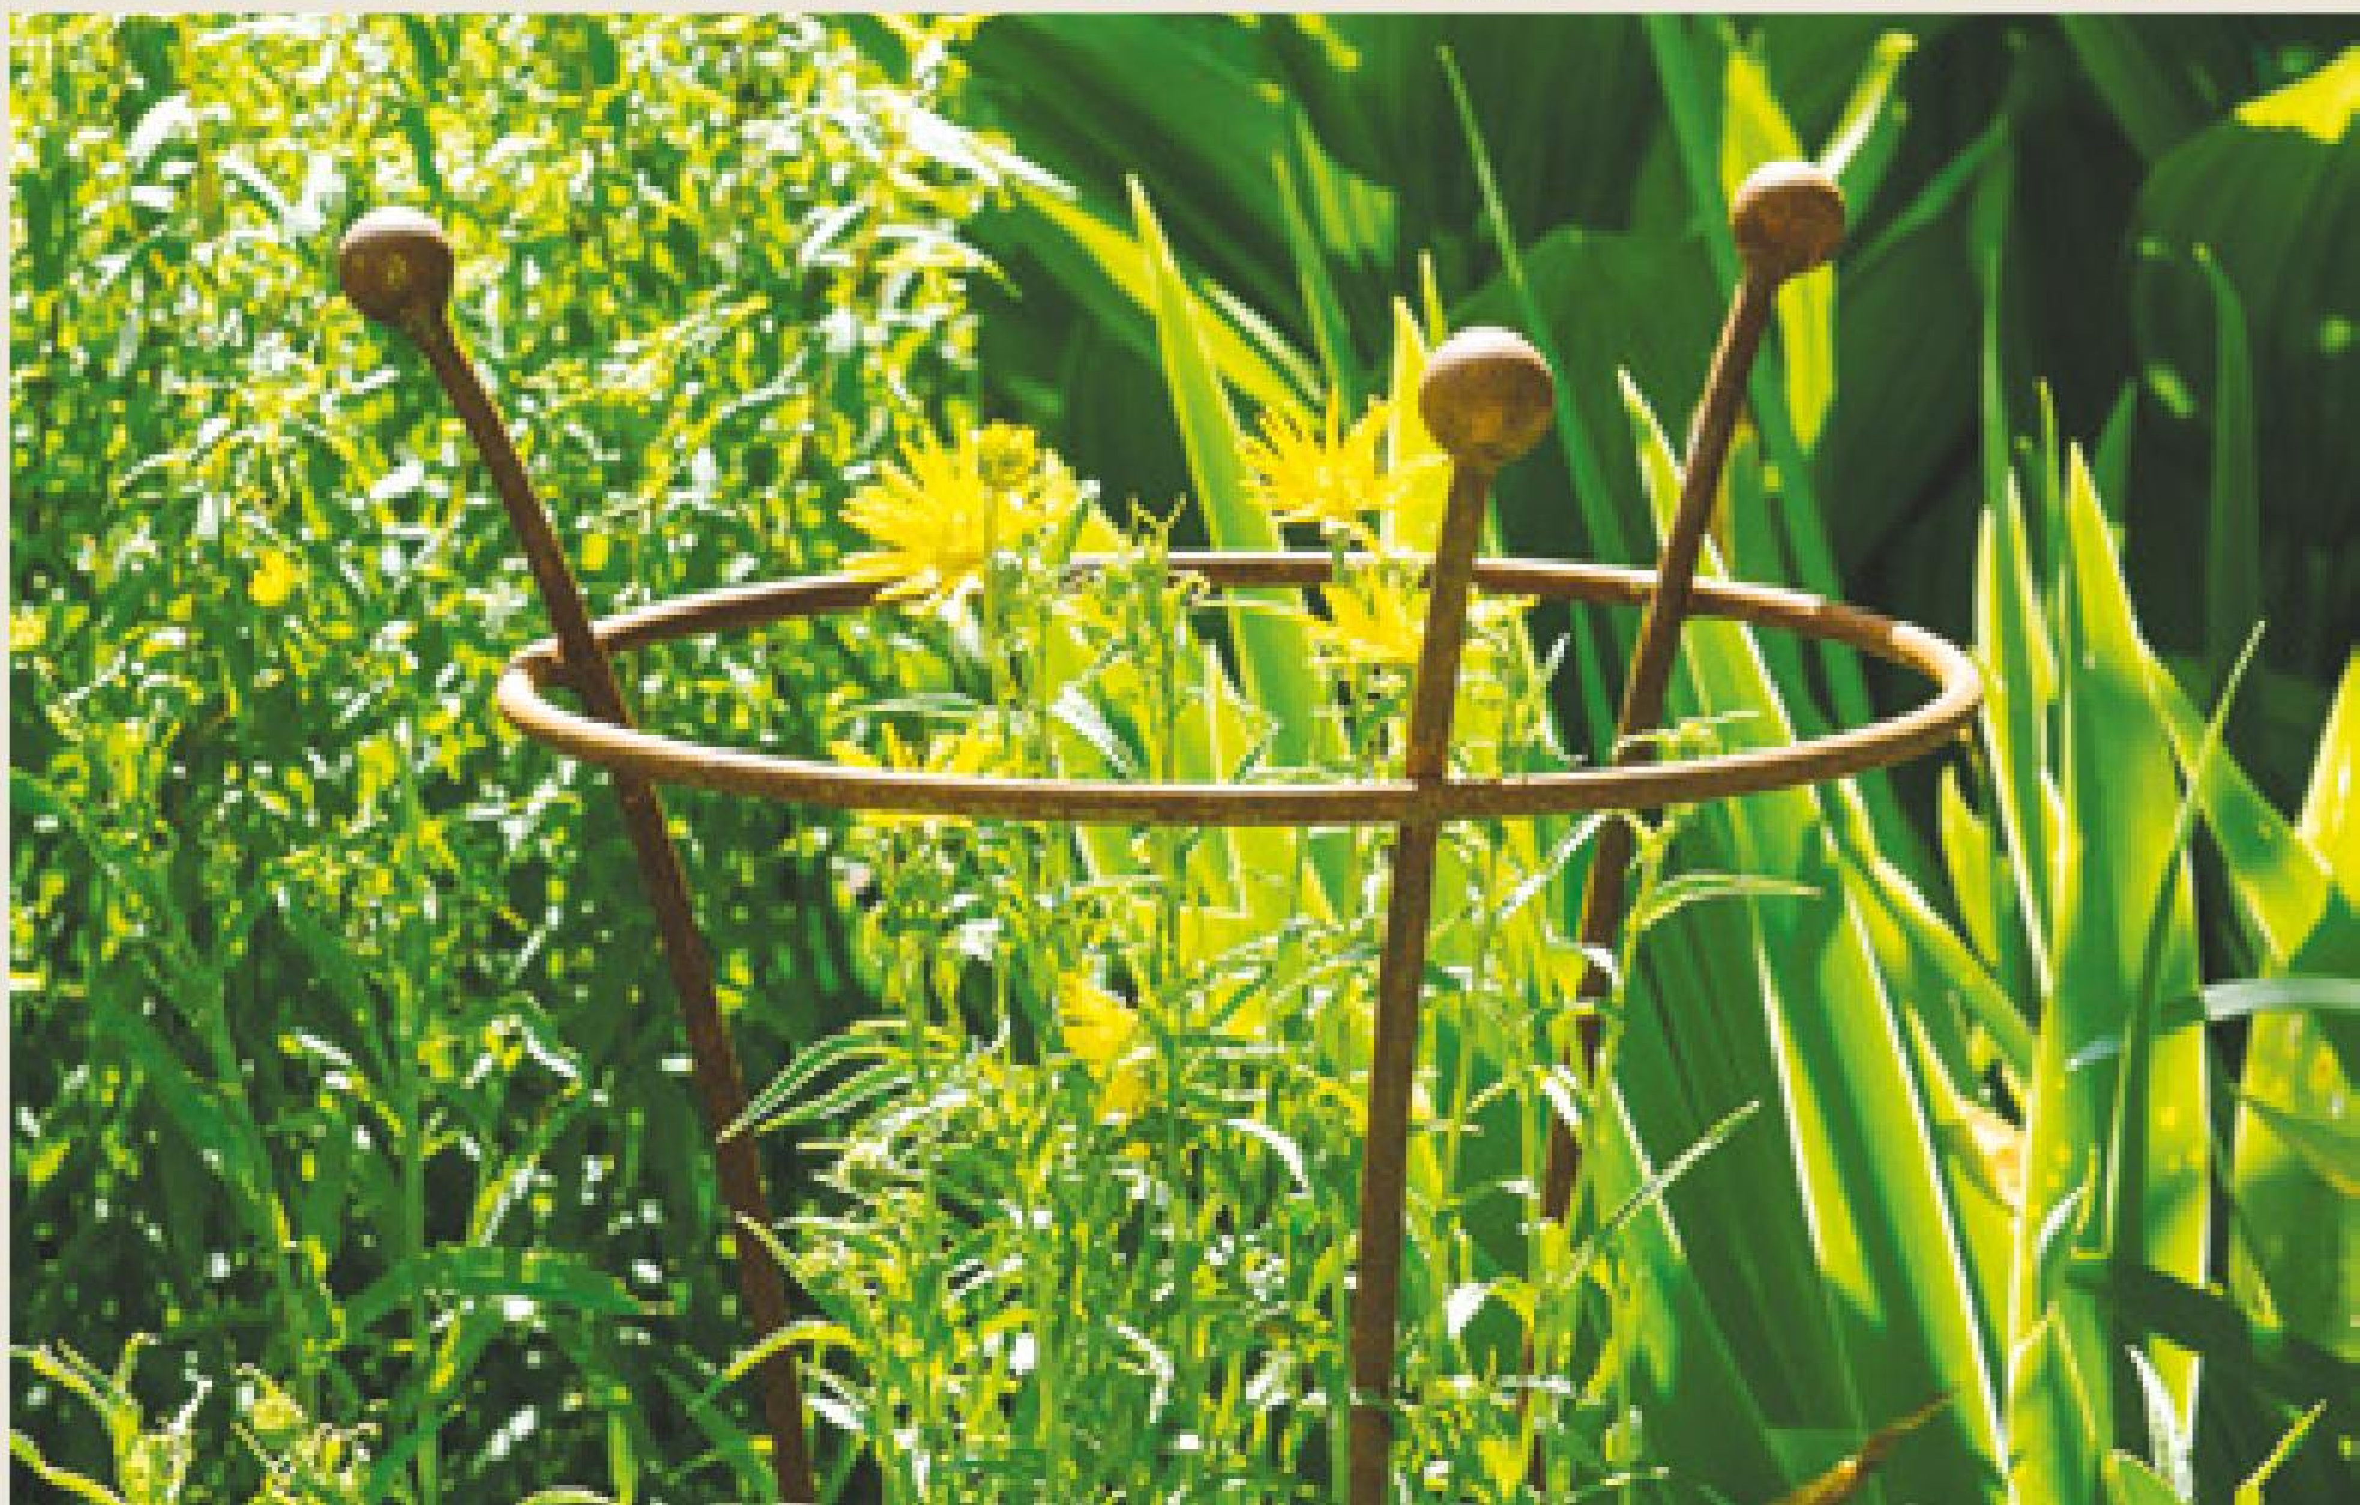
PLANT SUPPORTS, OBELISKS & TRELLIS

Supporting your garden plants is essential to maintaining their health and appearance, particularly those prone to damage from wind and heavy rain. Tall, heavy perennials can quickly become top-heavy, and without proper support, they may flop over, split, or collapse, affecting their growth and beauty.



Our extensive range of plant supports, obelisks, and trellis systems offers both practicality and style, ensuring your plants stay upright while enhancing the overall look of your garden. Designed to complement traditional or contemporary settings, we have styles, sizes, and finishes to suit every type of garden.

Invest in high-quality garden solutions now and watch your landscape flourish with beauty and structure. With the right supports and a well-planned planting strategy, you'll enjoy a garden that not only grows but also impresses.

Photo credit: Terry Winters @terrywinters9141
www.ordnancehouse.co.uk

YOUR 2025 GROWING CALENDAR:

March: Kick off the planting season by sowing bedding plants for summer, including cosmos, gazania, petunia, lobelia, sweet pea, calendula, clarkia, larkspur, nigella and marigold. You can also plant bare-root peonies now for vibrant blooms in late spring and summer.

April: Sow half-hardy flowers like nemesia, rudbeckia, cosmos, and French marigold indoors or under cover. Hardy annuals such as oxalis and clarkia can be sown outdoors or inside. Late in the month, plant dahlia tubers for a stunning summer display.

May: With the soil warming up, sow seeds of primrose, cornflowers, calendula, and sweet William directly into the ground. Press nasturtium seeds into damp compost for summer colour. It's also a good time to plant climbers like Passion Flower.

June: In the greenhouse, sow polyanthus, primrose, and pansy. Outdoors, sow alstroemeria, achillea, arabis, Canterbury bells, coreopsis, erigeron and myosotis for a vibrant summer garden.

July: Add quick-blooming wildflowers such as alyssum, red poppy, zinnia and cosmos. These plants grow rapidly and will offer a colourful end-of-season show.

August: Late summer is perfect for sowing hardy annuals like calendulas and Californian poppies. These will establish themselves for a strong display in the next season.

September: Sow spring and summer flowers such as poppies, lupins, cornflowers and larkspur. Plant clematis at the base of arches and trellises for a stunning spring display.

October: Plant daffodil, allium and crocus bulbs for a glorious spring show. It's also time to plant bare-root roses, which will start growing as the warmer months return.

November: Make early sowings of geraniums, nemesia, and coleus. Plant hardy, deciduous shrubs like fothergilla, witch hazel and hydrangeas.

December: Grow winter-flowering plants like honeysuckle, mahonia, daphne, and winter pansies. Container planting is ideal during this season.

February: Start sowing summer bedding plants such as geraniums, petunias, impatiens and nicotiana. Also, sow some perennials to get an early start on the growing season.

TRUMPET PLANT SUPPORTS

Often referred to as peony supports, these stylish Trumpet Plant Supports feature a graceful curved design and decorative ball finials, making them a standout feature in any garden bed or border. Not only do they add visual appeal, but they also provide essential support for your plants, ensuring they remain upright and vibrant.

- ***Elegant Design:*** The graceful curved frame and decorative ball finial add style and structure to your garden.
- ***Sturdy Plant Support:*** Keeps flowers upright, preventing drooping and damage from wind or rain.
- ***Versatile Use:*** Ideal for a wide range of plants, including peonies, lupins, tulips and roses.
- ***Durable Construction:*** Crafted from 8mm-10mm solid steel rods, providing reliable support throughout the growing season. 5 year structural guarantee for matt black and natural rust finishes. 25 year structural guarantee for hand etched finish. All guarantees exclude surface corrosion.
- ***3 Distinctive Finishes:*** Choose from classic matt black powder coating; natural rust that is supplied in degreased plain steel which quickly develops an even rust patina; and hot dip galvanised hand etched finish, which offers rust protection and a unique aged patina that improves with age.

CIRCULAR PLANT SUPPORTS

Add both beauty and functionality to your garden with these stunning plant supports. Designed for larger flowers and plants, they prevent stems from snapping in the wind or flopping under their own weight. Plus, when left in place over winter, they mark the spots where dormant plants will reappear next season.

- ***Tall Circular Plant Supports (100cm & 140cm H):*** Perfect for supporting dahlias, delphiniums, lupins, penstemons, shrub roses, hollyhocks, poppies, and foxgloves.
- ***Short Circular Plant Supports (40cm & 60cm H):*** Ideal for herbs, campanulas, agapanthus, shrub roses, hollyhocks, and foxgloves.
- ***Stylish and Durable Finish Options:*** Choose from a matt black powder coated finish for a sleek look or untreated plain steel that develops a rustic, natural patina over time.
- ***Uncompromising Quality:*** Built with 8mm gauge steel rods for legs and 6mm gauge rods for rings. Backed by a 5 year structural guarantee for both finishes (excluding surface corrosion) for peace of mind.

HARROD PLANT STAKES

Ensure your plants grow strong and upright with our expertly designed Garden Plant Stakes. Essential for supporting perennials and tall plants, these stakes prevent collapsing and flopping, especially in adverse weather. With a range of styles and sizes, our stakes provide versatile and discreet support for any garden.

- ***Prevents Collapse:*** Supports plants to grow upward and resists flopping under heavy flowers or fruit, especially after heavy rain or strong winds.
- ***Durable Construction:*** Made from 6mm steel wire or 12mm thick steel rod (Plant/Tree Stakes), and available powder coated or in plain steel that develops a natural rust patina.
- ***Customisable Design:*** The straight arm 'Traditional Link Stakes' offer complete versatility to create any size or shape of plant support by linking one stake to the next.
- ***Easy Installation:*** Releasable Plant Supports feature quick-release hooks for easy setup and removal without damaging plants.
- ***Comprehensive Collection:*** From the Stem Loop Support with a 15mm gap for single stems like irises, delphiniums, tulips and alliums to the Spiral Support which can twist round plants like asters, lupins, cornflowers and smaller peonies for protection and support.

HARROD BORDER SUPPORTS

Enhance your garden's structure and protect your plants with our versatile steel Border Restraints and Double Arc Plant Supports. Designed and manufactured in the UK, these robust supports are ideal for shaping and containing plants, ensuring they thrive without spilling over pathways or breaking under their own weight.

Use on their own or in pairs to create a row or circle. Made from 6mm wire, they are available in plain steel that develops a natural rust patina or powder coated olive green (Border Restraints only).

HARROD VINTAGE WIRE OBELISKS

Add a touch of classic charm and practical support to your garden with our Vintage Wire Obelisks. Designed and crafted in the UK, these obelisks are ideal for both traditional and contemporary gardens, offering elegant vertical elements that enhance any outdoor space.

WHY CHOOSE VINTAGE WIRE OBELISKS?

Their elegant designs make them perfect for supporting a wide variety of climbing plants and shrubs. Whether you want to create a focal point in your garden or add vertical interest to borders and beds, these obelisks offer both beauty and practicality.

WHAT TO GROW ON YOUR OBELISK

Vintage Wire Obelisks are versatile and suitable for a range of plants. They support climbing roses, clematis, jasmine, sweet peas, and even vegetables like beans and squash. With multiple sizes available, you can choose the perfect obelisk to complement plants of varying heights and add a dynamic visual element to your garden.

- ***Durable Construction:*** Made as one piece from solid 10mm gauge steel rods with options for 3 distinctive finishes. Classic matt black powder coating, natural rust that develops from plain steel or our hot dip galvanised hand etched finish which offers rust protection and a unique aged patina that will improve with age.
- ***Reassuring Long Guarantees:*** 10 year structural guarantee for matt black and natural rust finishes. 25 year structural guarantee for hand etched finish. All guarantees exclude surface corrosion.
- ***Easy Installation:*** Complete with a solid base ring for secure installation with 4 x 30cm L ground anchors that optimises above ground height.

HARROD BOX SECTION STEEL OBELISKS

Introducing our expertly designed Box Steel Obelisks, crafted to offer both practical support and stunning architectural interest in your garden. These robust obelisks are made with the same high standards as our garden arches, pergolas, and fruit cages, providing a durable and stylish solution for supporting climbing plants.

- ***Durable and Long Lasting:*** Built from galvanised 25mm wide steel with 1.5mm wall thickness, these obelisks are designed to withstand the elements. 10 year framework guarantee for black and lichen green powder coated finishes. 25 year framework guarantee for hand etched finish.
- ***3 Distinctive Finishes:*** Black and lichen green are powder coated finishes, whilst our hot dip galvanised hand etched finish, offers a unique aged patina that improves with age and the vagaries of the British climate.
- ***Secure and Stable:*** Easily inserted 30cm into the ground for stability, with the option to concrete them in for added security, ensuring they stay firmly in place. Pyramid designs do not require anchoring.
- ***Seamless Design:*** Features discreet flush-fitting connectors that are reinforced with steel inserts, ensuring strength without compromising on aesthetics.
- ***Easy Assembly:*** Supplied flat packed for convenience with all necessary fixings included, these obelisks are quick and easy to assemble with full instructions provided.

HARROD TRELLIS

Garden trellises are an elegant and practical solution for supporting climbing plants, creating beautiful focal points on walls and fences. Offering a seamless connection between your home and garden, trellises help maximise growing space while adding vertical interest to your outdoor area.

- ***Durable and Long Lasting:*** Made from high quality 8mm solid steel wire material, our metal trellis panels are maintenance free making them a more durable alternative to wooden trellises. 10 year structural guarantee for matt black finish and natural rust. 25 year structural guarantee for hand etched finish. All guarantees exclude surface corrosion. Zinc plated steel hook brackets and fixings included which keep panels and plants 25mm from the wall.
- ***3 Distinctive Finishes:*** Powder coated matt black; a natural rust that develops quickly from the unpainted surface into an even rust patina; or our hot dip galvanised hand etched finish, which offers a unique aged patina that improves with age.
- ***Maximise Growing Space:*** Ideal for small gardens, trellises allow you to make the most of walls and fences, providing vertical space for climbing plants like roses, wisteria, and even vining vegetables.
- ***Versatile Designs:*** Our UK designed range includes fan trellises, drainpipe trellises and decorative wall panels, offering solutions to suit any garden style.

HARROD DRAINPIPE TRELLIS

The Southwold Drainpipe Trellis offers a stylish and practical solution for transforming unsightly drainpipes into beautiful features that seamlessly link your home and garden. Expertly crafted from solid steel, this trellis is designed to support climbing plants while adding a decorative touch to your outdoor space. With options for a unique hand-etched antique patina or a sleek powder coated matt black finish, these maintenance-free trellis panels are built to last, making them a perfect addition to any garden.

- ***Durable & Long Lasting:*** Made from strong 8mm solid steel rod, they are a robust, maintenance-free alternative to traditional trellises. 10 year structural guarantee for matt black powder coated finish. 25 year structural guarantee for hand etched finish. All guarantees exclude surface corrosion. Zinc plated steel hook brackets and fixings included which keep panels and plants 25mm from the wall.
- ***2 Distinctive Finishes:*** Powder coated matt black or our hot dip galvanised hand etched finish, which offers a unique aged patina that improves with age.
- ***Elegant & Functional Design:*** The trellis features decorative 25mm ball finials and a fully welded one-piece construction, designed to be wall-mounted using discreet fixing plates. This sturdy design allows air to circulate around the drainpipe, reducing humidity and providing ample room for plants to climb freely.
- ***Perfect for Climbers:*** Ideal for supporting a range of climbing plants such as rambling roses, honeysuckle, and clematis, the trellis helps to soften garden walls and elevate the aesthetic of any outdoor space.

HARROD TRELLIS GROWING FRAMES

The Harrod Trellis Growing Frames provide a robust, long-lasting solution for adding structure and screening to your garden. Whether used to divide garden areas or support climbing plants, these durable steel frames offer a superior alternative to wooden trellises. Available in both 25mm square post and 12mm wire post designs, these frames combine elegance with practicality, making them ideal for any garden space.

- ***Durable & Long Lasting:*** Crafted from zinc-plated steel and powder coated for a weatherproof finish, both trellis designs are built to withstand the elements and come with a 10 year framework guarantee, ensuring longevity far beyond traditional wooden trellises.
- ***Customisable & Versatile:*** Choose from Portrait or Landscape Starter Kits and add as many extension kits as needed, with the flexibility to create straight or 90-degree trellis arrangements. All posts designed to go 40cm into the ground.
- ***Perfect for Climbers:*** Ideal for supporting a wide range of climbing plants like roses and honeysuckle, these trellises provide both functional plant support and stylish screening, making them an attractive focal point in any garden.

HARROD LAWN EDGING

Lawn and garden edging plays a crucial role in maintaining a polished and well-structured garden. Defined edges can transform the appearance of your outdoor space, offering a professional finish and highlighting your lawn and flower beds. With our range of quality edging products, it's easy to achieve sharp, clean lines that enhance your garden's design all year round.

- ***Stylish and Practical:*** Harrod Edging and Border Hoops not only protect lawn edges and borders, as well as holding back low plants, but they also add structural elegance and interest to pathways and garden beds.
- ***Robust Designs:*** Manufactured using solid steel wire, 10mm for Border Hoops and 6mm for Edging Hoops, they are both structurally guaranteed for 5 years.
- ***Choice of Finishes:*** Available in natural rust that forms from plain steel, powder coated matt black (Edging Hoops only) or hot dip galvanised hand etched finish (Border Hoops only).
- ***Durable & Low Maintenance:*** Everedge Steel Lawn Edging offers a long lasting, weather-resistant solution made from galvanised steel to ensure a pristine, defined look with minimal upkeep. Extremely flexible and can easily be shaped around curves.

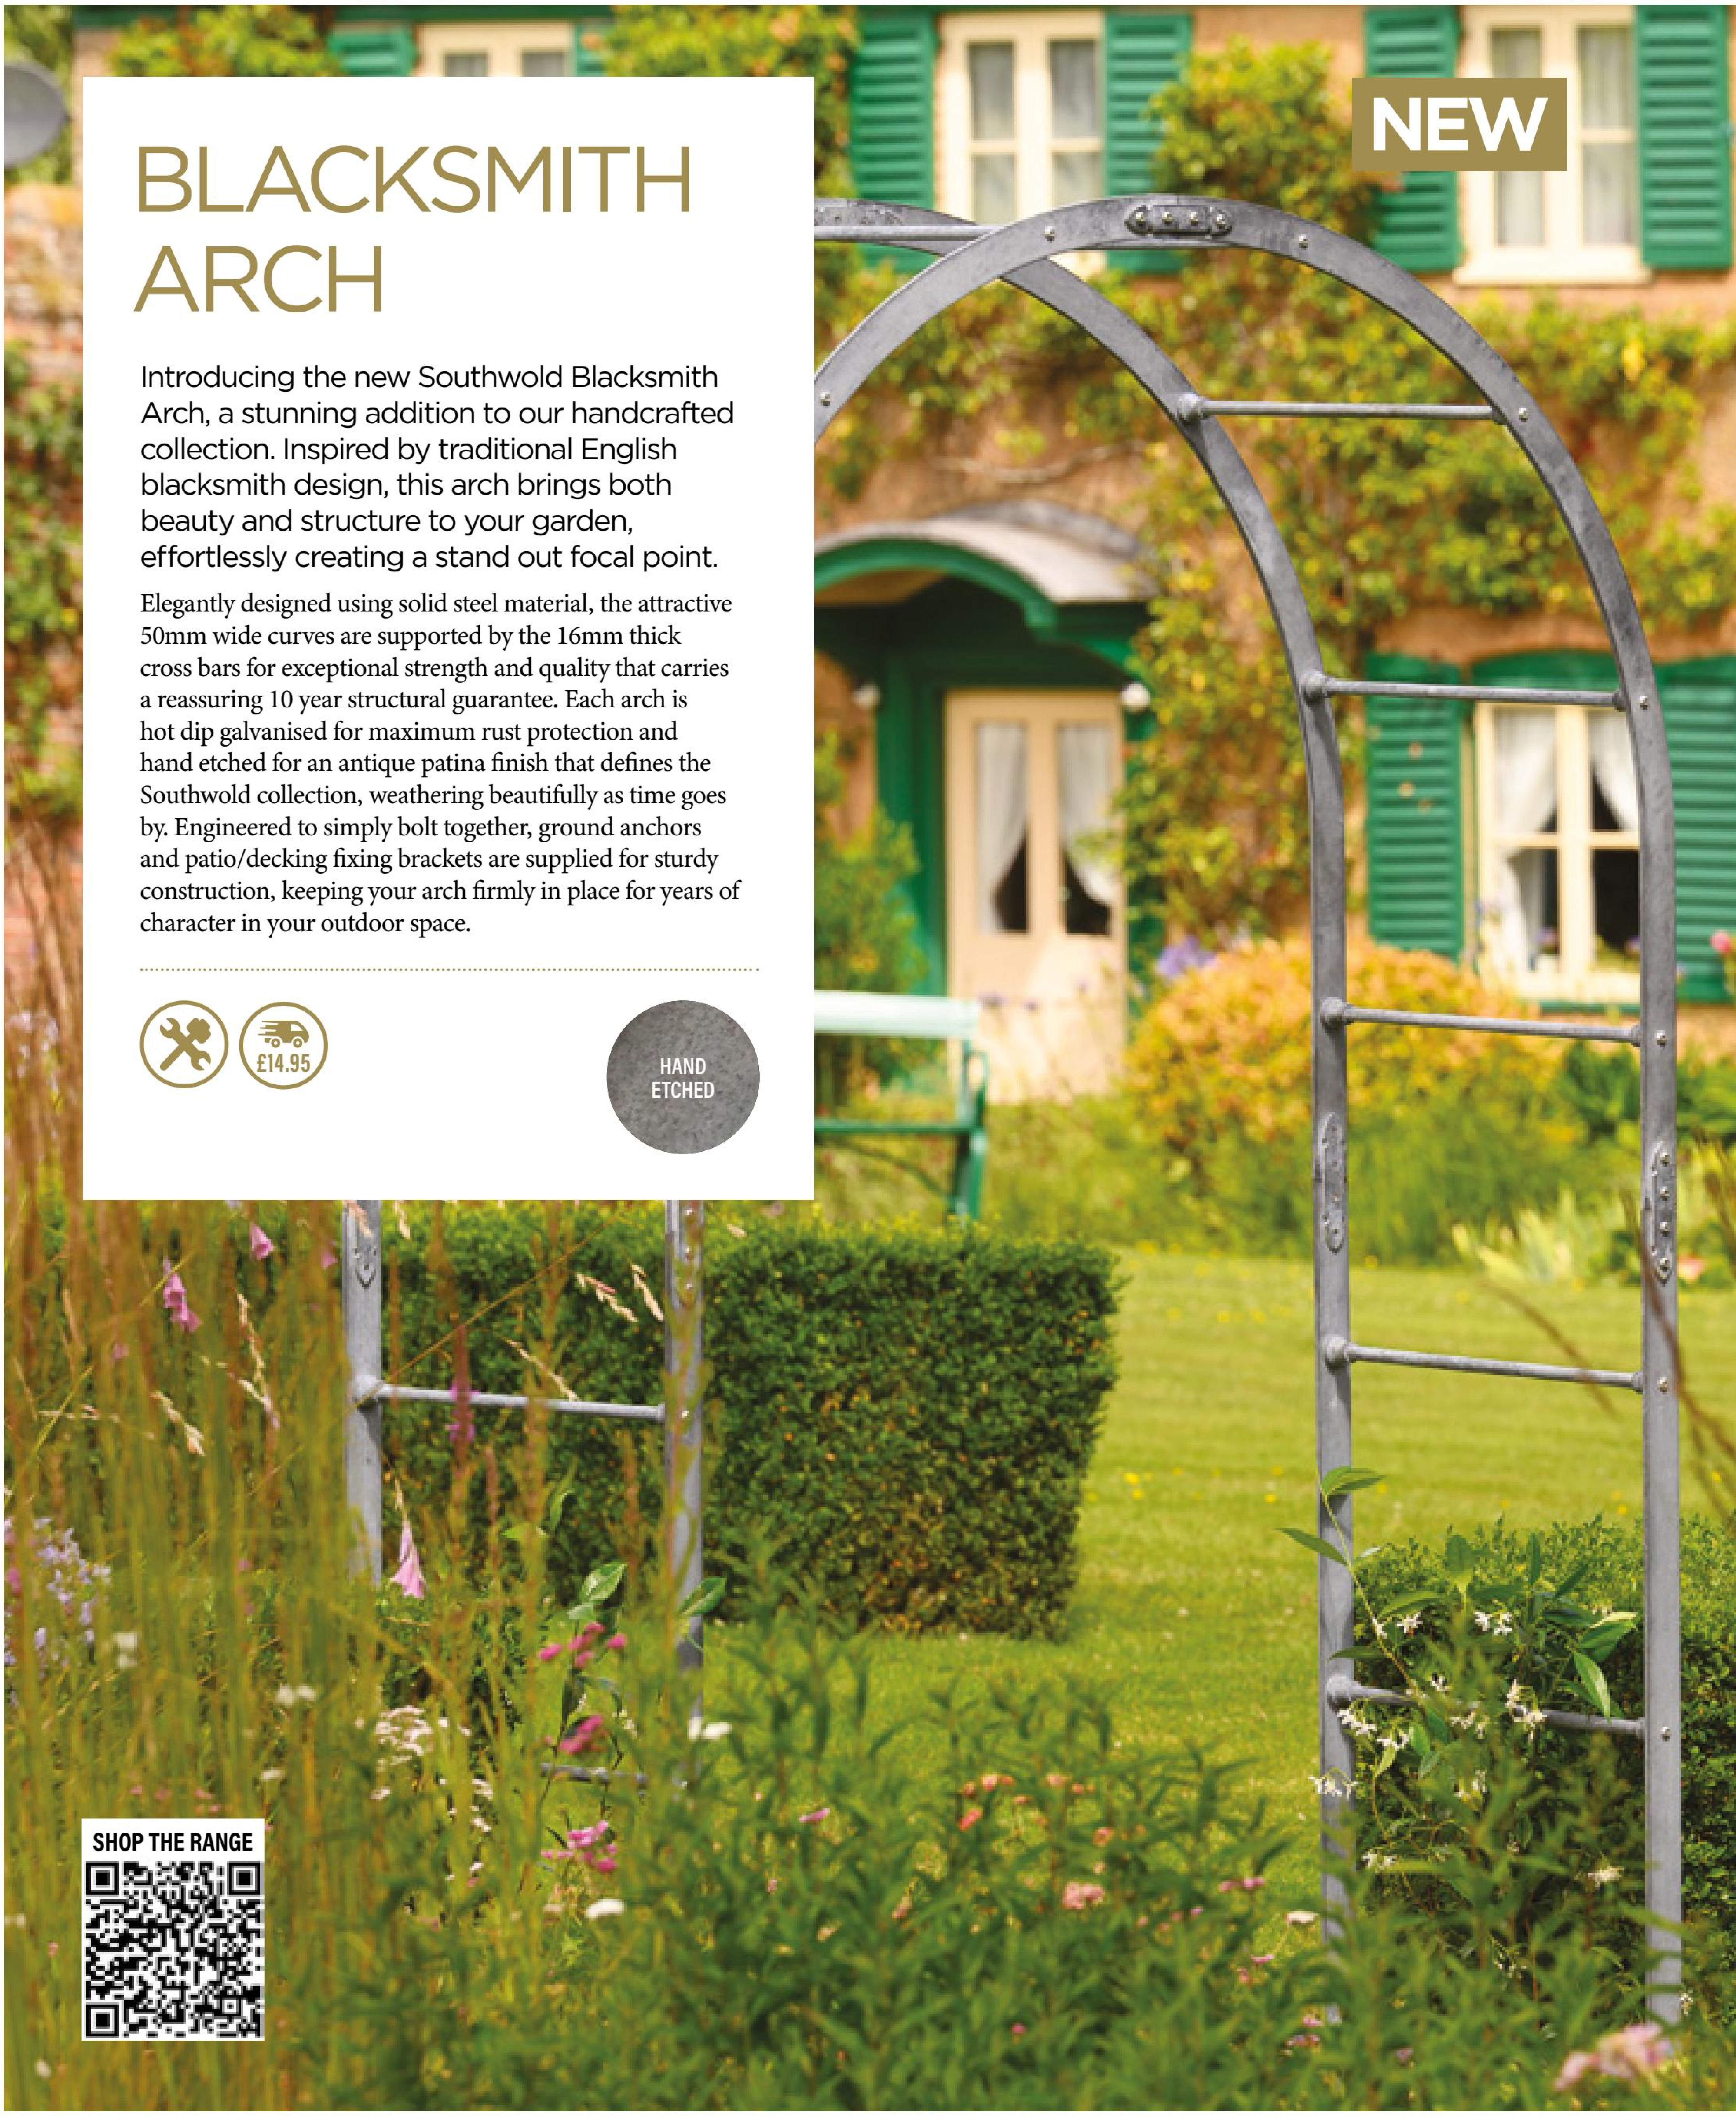
ARCHES AND STRUCTURES

Incorporating a garden arch or structure from Harrod Horticultural offers both aesthetic and functional benefits, making them a valuable addition to your outdoor space.

Our garden arches and structures serve as stunning focal points that frame views and add elegance. Whether you opt for a classic Roman arch, a graceful Ellipse, or a unique Moon Gate, these features not only enhance your garden's visual appeal but also define spaces and guide visitors.

Designed to support climbing plants, our arches and pergolas ensure that your roses, jasmine, wisteria, and other vines can thrive and flourish. They provide essential stability, helping to keep your plants healthy and resilient against weather conditions.

Pergolas, in particular, can create shaded walkways, offering both sun protection and a beautiful canopy of blooms, perfect for strolling through on a glorious Summer's evening.



BLACKSMITH ARCH

Introducing the new Southwold Blacksmith Arch, a stunning addition to our handcrafted collection. Inspired by traditional English blacksmith design, this arch brings both beauty and structure to your garden, effortlessly creating a stand out focal point.

Elegantly designed using solid steel material, the attractive 50mm wide curves are supported by the 16mm thick cross bars for exceptional strength and quality that carries a reassuring 10 year structural guarantee. Each arch is hot dip galvanised for maximum rust protection and hand etched for an antique patina finish that defines the Southwold collection, weathering beautifully as time goes by. Engineered to simply bolt together, ground anchors and patio/decking fixing brackets are supplied for sturdy construction, keeping your arch firmly in place for years of character in your outdoor space.

HARROD ROMAN ARCHES

Elevate your garden's charm with our Roman Garden Arches, designed to offer timeless elegance and exceptional craftsmanship.

These arches feature a semi-circular span that beautifully supports climbing plants, making them ideal for roses, clematis, and other ornamentals. Their versatility allows you to create stunning garden tunnels when multiple arches are used in succession, adding a dramatic focal point to your outdoor space.

- ***Durable Construction:*** Crafted from 25mm square section steel, these arches are fully galvanised and powder coated for a long lasting weatherproof finish, ensuring both strength and durability. Backed by a 10 year framework guarantee.
- ***Elegant Design:*** Features flush-fitting steel reinforced connectors and heavy-duty black stainless steel bolts for a sleek look.
- ***Various Sizes:*** Available in widths from 1.2m to 3m and heights from 2.3m to 2.8m, these arches can span pathways or garden beds effortlessly.
- ***Intricate Lattice Panels:*** Laser cut panels with 20mm wide diamond mesh are available on the uprights (Half Lattice Arch) or for the full frame (Full Lattice Arch).
- ***Stable and Secure:*** Designed to be installed directly into the soil with uprights extending 40cm below ground, these arches offer added stability, with optional ground sockets available for extra security in soft ground or windy sites.

HARROD VINTAGE WIRE ARCHES

Enhance your garden's elegance with our handmade Vintage Wire Arches, a testament to UK craftsmanship. Constructed from robust solid steel, these arches offer exceptional durability and style. With a 10 year structural guarantee, they provide a lasting focal point for your outdoor space.

- ***Durable Construction:*** Made from 12mm thick solid steel wire for uprights and 10mm diameter for crossbars, ensuring long lasting strength. Available in natural rust finish (supplied in degreased plain steel, which quickly develops an even rust patina).
- ***Various Sizes:*** Available in three sizes, each measuring 0.5m deep, to suit various garden spaces.
- ***Stable Installation:*** Equipped with fixing plates for secure attachment to various surfaces, with optional 40cm L galvanised steel ground fixing pins for added stability.

CUSTOMER CASE STUDY:

TERRY WINTERS

Q: The Harrod Vintage Wire Arch and other structural elements bring a lot of character to your garden. How do you integrate these decorative yet functional items into the overall design?

TERRY: *I use several of Harrod's Vintage Wire Arches to create a sense of journey through the garden. They support beautiful plants like Clematis 'Purpurea Plena Elegans', which covers the arches with floral garlands by midsummer. I've also used the arches within beech hedging to create pathways between different areas, making them both practical and visually captivating.*

HARROD WALKWAY PERGOLAS

Transform your garden with our Garden Pergolas, designed to create stunning outdoor spaces draped in beautiful plants. These pergolas, a natural extension of our popular garden arch range, offer elegance and practicality, making them a perfect choice for enhancing your garden.

- ***Customisable Sizes:*** Available in various styles and sizes, with optional extension kits to create the perfect walkway.
- ***Durable Materials:*** Crafted from fully galvanised 25mm box section steel and powder coated for weather resistance with a 10 year framework guarantee.
- ***Elegant Design:*** Features flush fitting steel reinforced connectors and heavy-duty black stainless steel bolts for a sleek look.
- ***Stable and Secure:*** Designed to be installed directly into the soil with uprights extending 40cm below ground, these pergolas offer added stability, with optional ground sockets available for extra security in soft ground or windy sites.
- ***Ideal for Climbing Plants:*** Perfect for supporting climbing plants like roses, clematis, wisteria, and honeysuckle, creating a beautiful, shaded walkway.

OUTDOOR LIVING

Bring your garden to life with our carefully curated Outdoor Living collection, designed to turn your outside space into a luxurious retreat. From chairs, benches, and sofas to large and small tables, our range of Garden Furniture and accessories offers everything you need to create inviting seating areas, stylish al fresco dining spaces, cozy reading nooks, and expansive setups for entertaining.

The range extends beyond furniture to include pergolas, arches, planters, plant supports, obelisks, and trellis, all crafted with the same timeless, antique finish. Take a look at our 'shop the look' pages for your complete garden inspiration - see pages 112-113.

Further your outdoor dining experience with our hand selected tableware and accessories, carefully curated with our partner Rebecca Udall. The unique collection of artisanal crockery, handcrafted glassware, exquisite cutlery and luxury table accents allow you to create extraordinary tablescapes for all occasions – **see our website for more details**.

Whether you're seeking to create a serene outdoor oasis or a vibrant entertaining space, our Outdoor Living Collection provides enduring beauty and functionality for generations to come.

DARSHAM FOLDING

GARDEN FURNITURE COLLECTION

We are delighted to extend our furniture offering with the Darsham Folding Collection. Perfect for outdoor spaces that require a bit more flexibility, this folding furniture range brings unmatched versatility. Our 1m Folding Dining Set is ideally suited for intimate meals, while the Folding Bistro Set is compact and stylish - ideal for balconies or patios. This flexibility allows homeowners to maximise their outdoor area, creating impromptu nooks for dining or entertaining guests.

- ***Robustly manufactured:*** carefully handcrafted using the same material and processes that are synonymous with the Southwold Collection. High quality steel and hot dip galvanised for maximum rust protection.
- ***Easy folding:*** the chairs and tables all feature a thoughtfully designed smooth folding mechanism with safety catch for easy storage.
- ***Choice of tables:*** a 1m diameter round table that seats up to 4 for dining or a 80cm diameter bistro table for a get together for 2.
- ***Choice of chairs:*** we've designed 2 stylish chairs in the Darsham Collection, both delivering on comfort with their curved back and seat that has that quintessential give and spring. Choose design A that stands out with its distinctive half moon shaped lower frame and legs or design B with its elegant curved legs and pointed feet. Both models come with floor protecting feet pads.
- ***Choice of finish:*** all sets are offered in our hand etched finish that has a beautiful distinctive antique patina. There is also the choice of our powder coated soft lichen green finish that blends effortlessly in garden settings.
- ***Reassuring lengthy guarantees:*** both finishes have minimal maintenance requirements and are backed with 10 year structural guarantees.

SOUTHWOLD GARDEN FURNITURE COLLECTION

Elevate your outdoor space with our exclusive Southwold Collection, a meticulously handcrafted range that combines timeless elegance with modern craftsmanship. Named after the picturesque Suffolk coastal town, this collection is designed and made in our Suffolk workshop, ensuring superior quality and enduring beauty. Each piece of garden furniture is crafted with a blend of traditional design and contemporary techniques. The result is a range that not only looks stunning but also stands the test of time, with a unique antique patina that develops beautifully over the years.

- ***Handcrafted Excellence:*** Each item is carefully made using high-quality steel, hot dipped in molten zinc for maximum rust protection, and hand-etched to create a distinctive antique finish.
- ***Versatile Range:*** Includes chairs, benches and sofas to large dining tables, smaller bistro and coffee tables, allowing you to create a stylish outdoor setting.
- ***Timeless Elegance:*** Designed to combine traditional aesthetics with modern durability, enhancing any garden or outdoor area with classic charm.
- ***Durable Construction:*** All pieces come with a 25 year structural guarantee, ensuring long-lasting quality and performance.
- ***Made in the UK:*** Proudly designed and manufactured in our Suffolk workshop, reflecting a commitment to local craftsmanship and superior materials.

PLANTERS

Each planter is made from high quality hot dip galvanised steel and hand etched for a unique aged patina that improves over time. The planters are great individually to create floral displays or for specimen shrubs and bay trees but are also very effective planted up in groups or in pairs.

- *Classic Planters:* Features straight sides with square panelled detail on all four faces, detailed moulding on the top and bottom and feature a decorative ring on two sides. Draining hole with bung supplied. The darker pre-weathered finish will lighten over time to create a beautiful classic aged patina.

- *Round Planters:* Meticulously researched, designed and expertly proportioned. They are hand spun and fabricated using traditional high-skilled techniques that delivers smooth rolled edges, a delightful tapered design and superior strength. Each design is detailed with side straps, attractive rivets and decorative rings, as well as solid ball feet. Bases include a central drain hole with bung and a security loop to attach a padlock/chain (not supplied) to prevent opportunist theft.

Customer services line

Tel: **0333 400 6400** for technical queries about your order between 8.30am-5pm Mon-Fri.
Or email **enquiries@harrod.uk.com**
Calls to 0333 numbers are usually chargeable at a local rate from both UK landlines and mobile phones. These calls are usually included within network providers' "free minutes" packages.

UK mainland Postage & Packing charges

We only charge you for postage and packing once per order, no matter how many items you buy. Our standard charge is £5.95 but if your order ONLY contains items marked with an envelope symbol then we charge just £3.95. If your order includes one of our heavier or larger items, then the postage price applicable is shown next to our lorry symbol - we will charge the highest postage value item in your order. For postage and packing charges to some parts of Scotland and outside the UK mainland, please telephone for a quote.

Delivery conditions

Our postage and packing prices are for most of UK mainland only. For delivery to parts of Scotland, Scottish Isles, Isle of Man, Isle of Wight, Channel Islands and Scilly Isles please phone for a quote. For Northern Ireland we are currently only able to accept orders from and deliver to business addresses with an EORI number.

Pricing and product information

Prices, product information and availability may change over time and we reserve the right to revise these in the event of unforeseen circumstances or change in the VAT rate. Prices include VAT where applicable. All prices & offers end 31st August 2025, unless otherwise stated.

Speed of standard delivery

With stock permitting we aim to despatch orders within 1-3 working days. All parcels are then sent on a service that delivers within 3 days. If your order includes items of Garden Furniture or a Greenhouse, see our website for delivery details.

Express delivery service

Stock permitting, we offer an EXPRESS delivery service. For orders that DO NOT include a lorry symbol, pay £10.95 P&P and we can despatch your parcel by next day delivery. We must receive your order by 12 noon from Monday-Thursday whereas those placed after 12 noon Friday will be delivered the following Tuesday. To receive EXPRESS delivery on items with a lorry symbol, please call 0333 400 6400 for a quotation.

And if you are not in...

Either send your order to an alternative delivery address or if you have a safe place to leave your package please let us know. Note that packages are left at entirely your own risk.

Our guarantee to you!

We want you to be delighted with your order so if for any reason you are unhappy with your items, you can return them in perfect condition and in their original packaging within 14 days for a replacement or a full refund. Returns postage will only be refunded if the item is damaged, faulty or if the wrong items have been sent. We do not accept responsibility for damaged or lost parcels on return. Any missing items should be reported within 14 days.

GIVE THE GIFT OF GARDENING

Our ever-popular Gift Vouchers are absolutely ideal for the gardener who appears to have everything or is difficult to buy for - or both!

The vouchers - available in £5, £10, £20, £50 and £100 denominations - are redeemable against any of the products in our current catalogue or website.

- Vouchers are posted to you without any charge for delivery if they are the only items on your order.
- Gift Vouchers are valid for 24 months from date of issue.
